**Regional Framework for Action on Food Safety in the Western Pacific** Who Regional Office for the Western Pacific, 2018-09-11 The Western Pacific Regional Food Safety Strategy 2011 2015 has contributed to good progress in food safety across the Western Pacific Region However more than 125 million people fall ill and more than 50 000 die annually from unsafe food in the Region Food safety is a highly complex health issue involving multiple domestic and international stakeholders Over recent years new developments including the introduction of new technologies increasing internationalization of the food chain and demographic changes have affected food safety in the Region The changing context of food safety affects food safety risk management as well as trust in the safety of the food supply Food safety trust is a multifaceted issue and an outcome of effective food safety systems At the same time it serves as an enabler for strengthening food safety systems to manage food safety risks and respond to food safety incidents and emergencies The Regional Framework for Action on Food Safety in the Western Pacific builds on the achievement and lessons learnt from the 2011 2015 Strategy It acknowledges the changing context of food safety and revisits the approach for strengthening national food safety systems This includes a stronger focus on building trust and confidence in food safety systems and implementing strategic actions that create leadership partnerships competency and resources that are the necessary enablers for advancing food safety systems The Framework provides guidance on strategic action and a stepwise approach to strengthen food safety systems to better manage food safety risks and respond to food safety incidents and emergencies It is intended to guide national food safety authorities in implementation of strategic action to strengthen national food safety systems as well as to obtain and advocate for high level political support to enhance food safety It is also intended to facilitate regional cooperation among food safety authorities

**Action Plan to Reduce the Double Burden of Malnutrition in the Western Pacific Region (2015-2020)** WHO Regional Office for the Western Pacific, 2015-05 This report brings together nutrition related actions from global and regional guidance documents to address diet related diseases and reduce nutritional risk factors The plan aims to achieve eight nutrition targets the six global nutrition targets and two of the nine voluntary NCD targets to reduce salt intake and halt the increase in obesity and diabetes endorsed by the World Health Assembly in 2012

[Overweight and Obesity in the Western Pacific Region an Equity Perspective](#) Who Regional Office for the Western Pacific, 2018-09-11 Overweight and obesity have become urgent global health issues in recent decades Globally the number of overweight children under the age of 5 years has increased from 32 million in 2000 to 41 million in 2014 corresponding to an increase in prevalence from 5 0% to 6 1% It is estimated that at the current pace by 2020 some 9% of all children under 5 years will be overweight Furthermore an increase in adult obesity prevalence has been observed in all countries and globally the prevalence of obesity among adults has doubled from 1980 to 2014 from 5% to 11% for men and from 8% to 15% for women Overweight and obesity were estimated to account for 3 4 million deaths annually and 93 6 million disability adjusted

life years DALYs 1 in 2010 The burden of overweight and obesity is inequitably distributed and affects some population groups and geographical areas more than others based on their social characteristics which are also inequitably distributed Vulnerability to overweight and obesity might depend on for instance urban or rural residence socioeconomic status ethnicity or the geographical area where people live and their nutritional status in the first 1000 days of life This report intends to assist policy makers in the World Health Organization WHO Western Pacific Region by contributing to a better understanding of the unequal distribution of overweight and obesity in the Region and by providing policy options to address the social determinants of overweight and obesity Identifying vulnerable population groups or areas can help policymakers programme managers and other actors to improve programme targeting and increase the effectiveness and improve the health and well being of the most vulnerable *Global Action Programme on Food Security and Nutrition in Small Island Developing States* Food and Agriculture Organization of the United Nations,2018-11-01 Most Small Island Developing States SIDS face a triple burden of malnutrition in which persistent levels of undernutrition and micronutrient deficiencies coexist with an increasing incidence of overweight and obesity A contribution to the 2030 Agenda for Sustainable Development the Global Action Programme on Food Security and Nutrition provides a framework for SIDS to identify and implement priority actions to achieve food security and nutrition objectives These actions can improve nutrition and well being reduce poverty and inequalities and foster economic growth

**Wellness for a Healthy Asia** Asian Development Bank,2021-10-01 The health and well being of Asians took a battering during the coronavirus disease COVID 19 pandemic Wellness or the active pursuit of activities for holistic health is vital for a sound mind and body As such now is an opportune time to take stock of the current state of wellness and the wellness economy in Asia Asians are blessed with rich wellness traditions they can leverage in their quest for mental and physical health This timely book examines the key drivers of the demand for wellness in the region It also sets out concrete policy options for promoting wellness among all Asians

**Asia and the Pacific Regional Overview of Food Security and Nutrition 2020** Food and Agriculture Organization of the United Nations ,World Food Programme ,World Health Organization ,United Nations International Children's Emergency Fund ,2021-01-19 The 2020 report on the State of Food Security and Nutrition in the Asia and Pacific region provides an update on progress towards the 2030 targets SDGs and WHA at the regional and country level Selected indicators look at undernourishment food insecurity childhood stunting wasting and overweight adult overweight child minimum acceptable diet exclusive and continued breastfeeding and anaemia in women and children While the region continues to work towards ending all forms of malnutrition and achieving Zero Hunger progress on food security and nutrition has slowed and the Asia and Pacific region is not on track to achieving 2030 targets About 350 6 million people in the Asia and Pacific region are estimated to have been undernourished in 2019 about 51 percent of the global total An estimated 74 5 million children under five years of age were stunted and a total of 31 5 million were wasted in the Asia and Pacific region The majority of these children in the region live

in Southern Asia with 55.9 million stunted and 25.2 million wasted children. Estimates predict a 14.3 percent increase in the prevalence of moderate or severe wasting among children under 5 years of age equal to an additional 6.7 million children due to the COVID 19 pandemic. With basic food prices and disposable incomes influencing household decisions on food and dietary intake they are critical to improve food security and nutrition in the region. However in the Asia and Pacific region 1.9 billion people are unable to afford a healthy diet driven by high prices of fruits vegetables and dairy products making it impossible for the poor to achieve healthy diets. In Part 2 the 2020 report promotes a systems approach to healthy maternal and child diets involving and coordinating institutions and actors in the Food Water and Sanitation Health Social Protection and Education systems to collectively create the enabling environment for healthy diets. Integration of healthy diets and nutrition focused Social Behavior Change Communication SBCC mainstreamed throughout these systems will lead to greater uptake and sustainability of healthy behaviours and caregivers knowledge

**Achieving the Health-related MDGs in the Western Pacific Region**, 2010 *World health statistics 2024* World Health Organization, 2024-05-24 The World health statistics report is the annual compilation of health and health related indicators which has been published by the World Health Organization since 2005. The 2024 edition reviews more than 50 health related indicators from the Sustainable Development Goals and WHO's Thirteenth General Programme of Work. It also highlights the findings from the Global health estimates 2021 notably the impact of the COVID 19 pandemic on life expectancy and healthy life expectancy

**Integrating the social determinants of health into health workforce education and training** World Health Organization, 2023-11-08 *Livestock in a Changing Landscape, Volume 1* Henning Steinfeld, Harold A. Mooney, Fritz Schneider, Laurie E. Neville, 2013-03-06 The rapidly changing nature of animal production systems especially increasing intensification and globalization is playing out in complex ways around the world. Over the last century livestock keeping evolved from a means of harnessing marginal resources to produce items for local consumption to a key component of global food chains. Livestock in a Changing Landscape offers a comprehensive examination of these important and far reaching trends. The books are an outgrowth of a collaborative effort involving international nongovernmental organizations including the United Nations Food and Agriculture Organization UN FAO the International Livestock Research Institute ILRI the Swiss College of Agriculture SHL the French Agricultural Research Centre for International Development CIRAD and the Scientific Committee for Problems of the Environment SCOPE. Volume 1 examines the forces shaping change in livestock production and management the resulting impacts on landscapes land use and social systems and potential policy and management responses. Volume 2 explores needs and draws experience from region specific contexts and detailed case studies. The case studies describe how drivers and consequences of change play out in specific geographical areas and how public and private responses are shaped and implemented. Together the volumes present new sustainable approaches to the challenges created by fundamental shifts in livestock management and production and represent an essential resource for policy makers.
