

Figure 2a, which uses 1979-1980 data, suggests that the relationship between single-year and multi-year survival rates is non-linear and non-monotonic. This figure reveals a surprising result: for most of the individuals, not just a single-year survival rate, but also a multi-year survival rate, is higher than the

When you want to calculate the possible future returns of your portfolio, the possible combinations of assets are made of combinations of returns.

These guidelines, along with the additional two mandatory laws, ensure enhanced accountability for providers. It also ensures that the same process follows for each patient. It emphasizes a change from a *compliance* to a *culture* of accountability.
