## Andre Grabar:

Christian Iconography André Grabar, 2023-08-15 An illuminating look at the iconography of the early church and its important place in the history of Christian art. In this book historian André Grabar demonstrates how early Christian iconography assimilated contemporary imagery of the time. Grabar looks at the most characteristic examples of paleo-Christian iconography dwelling on their nature, form and content. He explores the limits of originality in such art, its debt to figurative art and the broader cultural climate in the Roman Empire, drawing a distinction between expressive images that are genuine works of art and informative ones. Throughout Grabar establishes the importance of imperial iconography in the development of Christian portraits and sheds light on the role they played alongside other forms of Christian piety in their day.

*The End of the Jihâd State* Khalid Yahya Blankinship, 1994-01-01 Demonstrates for the first time that the cause of the Umayyad caliphate's collapse came not just from internal conflict but from a number of external and concurrent factors that exceeded the caliphate's capacity to respond.

The Oxford Handbook of the Hellenistic and Roman Near East Rubina Raja, 2025 The Near East during the Hellenistic and Roman periods has been studied for centuries. This Handbook includes fifty chapters written by experts from a variety of disciplines: archaeology, including classical, near eastern and Islamic; ancient history; anthropology; art history; data and network science; epigraphy; and historiography. Together these chapters shed a fresh light on the vast regions that made up Hellenistic and later Roman Syria and the Near East. The material and written evidence from the region is considered side by side with historical sources as well as scientific data coming out of archaeological science and network science, and shows how new knowledge about the region can be brought to the forefront of current literature on the subject. The dynamic, volatile, diverse and culturally rich regions that this volume focuses on have left an abundant cultural heritage, and in many places these regions are under constant threat. In this Handbook, knowledge about the newest research on a myriad of these regions' sites and locations is highlighted together with overviews of the centuries long history of research. The Handbook is essential for students, scholars and the archaeologically inclined reader, and constitutes the definitive collection of current research in the field.

[Jerusalem, 1000-1400](#) Barbara Drake Boehm ,Melanie Holcomb,2016-09-14 Medieval Jerusalem was a vibrant international center home to multiple cultures faiths and languages Harmonious and dissonant voices from many lands including Persians Turks Greeks Syrians Armenians Georgians Copts Ethiopians Indians and Europeans passed in the narrow streets of a city not much larger than midtown Manhattan Patrons artists pilgrims poets and scholars from Christian Jewish and Islamic traditions focused their attention on the Holy City endowing and enriching its sacred buildings creating luxury goods for its residents and praising its merits This artistic fertility was particularly in evidence between the eleventh and fourteenth centuries notwithstanding often devastating circumstances from the earthquake of 1033 to the fierce battles of the Crusades So strong a magnet was Jerusalem that it drew out the creative imagination of even those separated from it by great distance from as far north as Scandinavia to as far east as present day China This publication is the first to define these four centuries as a singularly creative moment in a singularly complex city Through absorbing essays and incisive discussions of nearly 200 works of art Jerusalem 1000 1400 Every People Under Heaven explores not only the meaning of the city to its many faiths and its importance as a destination for tourists and pilgrims but also the aesthetic strands that enhanced and enlivened the medieval city that served as the crossroads of the known world

Space, Time, and Presence in the Icon Dr Clemena

Antonova,2013-06-28 This book contributes to the re emerging field of theology through the arts by proposing a way of approaching one of the most challenging theological concepts divine timelessness through the principle of construction of space in the icon One of the main objectives of this book is to discuss critically the implications of reverse perspective which is especially characteristic of Byzantine and Byzantining art Drawing on the work of Pavel Florensky one of the foremost Russian religious philosophers at the beginning of the 20th century Antonova shows that Florensky s concept of supplementary planes can be used productively within a new approach to the question Antonova works up new criteria for the understanding of how space and time can be handled in a way that does not reverse standard linear perspective as conventionally claimed but acts in its own way to create eternalised images which are not involved with perspective at all Arguing that the structure of the icon is determined by a conception of God who exits in past present and future

simultaneously Antonova develops an iconography of images done in the Byzantine style both in the East and in the West which is truer to their own cultural context than is generally provided for by western interpretations This book draws upon philosophy theology and liturgy to see how relatively abstract notions of a deity beyond time and space enter images made by painters
