Imagining the Self, Constructing the Past Robert G. Sullivan,Meriem Pagès,2016-09-01

Imagining the Self Constructing the Past celebrates the various ways in which the Middle Ages and the Renaissance are adapted recollected and represented in our own day and age Most of the chapters fit broadly into one of three categories namely the representation of the self in medieval and early modern history and literature the recollection and utilization of the past in the Middle Ages and the Renaissance and the role of the medieval and the early modern in our own society Overall the contributions to this volume bear witness to the importance of representation to our understanding of ourselves each other and our shared past

The Doctrine of Creation Bruce Riley Ashford,Craig G. Bartholomew,2020-11-10

According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today

Defending Sin Hans Madueme,2024-05-28 The conflict between the natural sciences and Christian theology has been going on for centuries Recent advances in the fields of evolutionary biology behavioral genetics and neuroscience have intensified this conflict particularly in relation to origins the fall and sin These debates are crucial to our understanding of human sinfulness and necessarily involve the doctrine of salvation Theistic evolutionists have labored hard to resolve these tensions between science and faith but Hans Madueme argues that the majority of their proposals do injustice both to biblical teaching and to long standing doctrines held by the mainstream Christian tradition In this major contribution to the field of science and religion Madueme demonstrates that the classical notion of sin reflected in Scripture the creeds and tradition

offers the most compelling and theologically coherent account of the human condition He answers pressing challenges from the physical sciences on both methodological and substantive levels Scholars pastors students and interested lay readers will profit from interacting with the arguments presented here *How Christmas Became Christmas* Nathaniel

Parry,2022-11-10 In some respects the contrasts of Christmas are what make it the most delightful time of the year It is a time of generosity kindness and peace on earth with broad permission to indulge in food drink and gifts On the other hand Christmas has become a battleground for raging culture wars marred by debates about how it should be celebrated and acknowledged as a uniquely Christian holiday This text argues that much of the animosity is based on a fundamental misunderstanding of the holiday s core character By tracing Christmas s origins as a pagan celebration of the winter solstice and its development in Europe s Christianization this history explains that the true reason for the season has as much to do with the earth s movement around the sun as with the birth of Christ Chapters chronicle how Christmas s magic and misrule link to the nativity and why the carnival side of the holiday appears so separated from traditional Christian beliefs **The**

Eschatological Imagination Wietse de Boer,Christine Göttler,2024-10-21 How did the early modern Christian West conceive of the spaces and times of the afterlife The answer to this question is not obvious for a period that saw profound changes in theology when the telescope revealed the heavens to be as changeable and imperfect as the earth and when archaeological and geological investigations made the earth and what lies beneath it another privileged site for the acquisition of new knowledge With its focus on the eschatological imagination at a time of transformation in cosmology this volume opens up new ways of studying early modern religious ideas representations and practices The individual chapters explore a wealth of at times little known visual and textual sources Together they highlight how closely concepts and imaginaries of the hereafter were intertwined with the realities of the here and now Contributors Matteo Al Kalak Monica Azzolini Wietse de Boer Christine G ttler Luke Holloway Martha McGill Walter S Melion Mia M Mochizuki Laurent Paya Rapha le Preisinger Aviva Rothman Minou Schraven Anna Claire Stinebring Jane Tylus and Antoinina Bevan Zlatar **For**

Love of Animals Charles Camosy,2013-10-25 For Love of Animals is an honest and thoughtful look at our responsibility as Christians with respect to animals Many Christians misunderstand both history and their own tradition in thinking about animals They are joined by prominent secular thinkers who blame Christianity for the Western world s failure to seriously consider the moral status of nonhuman animals This book explains how traditional Christian ideas and principles like nonviolence concern for the vulnerable respect for life stewardship of God s creation and rejection of consumerism require us to treat animals morally Though this point of view is often thought of as liberal the book cites several conservatives who are also concerned about animals Camosy s Christian argument transcends secular politics The book s starting point for a Christian position on animals from the creation story in Genesis to Jesus s eating habits in the Gospels rests in Scripture It then moves to explore the views of the Church Fathers the teachings of the Catholic Church and current discussions in both

Catholic and Protestant theology Ultimately however the book is concerned not with abstract ideas but with how we should live our everyday lives Should Christians eat meat Is cooperation with factory farming evil What sort of medical research on animals is justified Camosy also asks difficult questions about hunting and pet ownership This is an ideal resource for those who are interested in thinking about animals from the perspective of Christian ethics and the consistent ethic of life Discussion questions at the end of each chapter and suggestions for further reading round out the usefulness of this important work The General Epistles of St. James and St. Jude Alfred Plummer,1905 Talking Book Topics ,2017-07
