Animals And Why They Matter:

Animals and why They Matter Mary Midgley,1984 *Animals and Why They Matter* examines the barriers that our philosophical traditions have erected between human beings and animals and reveals that the too often ridiculed subject of animal rights is an issue crucially related to such problems within the human community as racism sexism and age discrimination Mary Midgley s profound and clearly written narrative is a thought provoking study of the way in which the opposition between reason and emotion has shaped our moral and political ideas and the problems it has raised Whether considering vegetarianism women s rights or the humanity of pets this book goes to the heart of the question of why all animals matter

The Emotional Lives of Animals Marc Bekoff,2010-10-05 Based on award winning scientist Marc Bekoff s years studying social communication in a wide range of species this important book shows that animals have rich emotional lives Bekoff skillfully blends extraordinary stories of animal joy empathy grief embarrassment anger and love with the latest scientific research confirming the existence of emotions that common sense and experience have long implied Filled with Bekoff s light humor and touching stories *The Emotional Lives of Animals* is a clarion call for reassessing both how we view animals and how we treat them

Animals Matter Marc Bekoff,2007-11-13 Nonhuman animals have many of the same feelings we do They get hurt they suffer they are happy and they take care of each other Marc Bekoff a renowned biologist specializing in animal minds and emotions guides readers from high school age up including older adults who want a basic introduction to the topic in looking at scientific research philosophical ideas and humane values that argue for the ethical and compassionate treatment of animals Citing the latest scientific studies and tackling controversies with conviction he zeroes in on the important questions inviting reader participation with thought experiments and ideas for action Among the questions considered Are some species more valuable or more important than others Do some animals feel pain and suffering and not others Do animals feel emotions Should endangered animals be reintroduced to places where they originally lived Should animals be kept in captivity Are there alternatives to using animals for food clothing cosmetic testing and dissection in the science classroom What can we learn by imagining what it feels like to be a dog or a cat or a mouse or an ant What can we do to make a difference in animals quality of life Bekoff urges us not only to understand and protect animals especially those whose help we want for our research and other human needs but to love and respect them as our fellow beings on this planet that we all want to share in peace

Animals in Social Work T. Ryan,2014-10-09 This collection of essays articulates theoretical and philosophical arguments and advances practical applications as to why animals ought to matter to social work in and of themselves It serves as a persuasive corrective to the current invisibility of animals in contemporary social work practice and thought
