This is a clear and appealing book for early elementary age kids both at home and in the classroom. Introduce kids to basic science ideas as part of discussions about the seasons and animals. Read and find out in the proven winner *Animals in Winter*. This is a Level 1 Let's Read and Find Out which means the book explores introductory concepts perfect for children in the primary grades. Building Foundations of Scientific Understanding Bernard J. Nebel, Ph.D., 2014-10-09 Building Foundations of Scientific Understanding BFSU. BFSU is for teachers, homeschoilers, and other educators to deliver a first rate science education to K-8 students and older beginning science learners. Vol I is for grades K-2 and older beginning science learners. Volumes II and III are for grades 3-5 and 6-8 and older progressing science learners. BFSU provides both teaching methodologies and detailed lesson plans, embracing and integrating all the major areas of science. BFSU lessons follow structured learning progressions that build knowledge and develop understanding in systematic, incremental steps. BFSU lessons all center around hands-on experience and real world observations. In turn, they draw students to exercise their minds in thinking and drawing rational conclusions from what they observe/experience. Therefore, in following BFSU, students will be guided toward conceptual understanding of crosscutting concepts and ideas of science, as well as factual knowledge, and they will develop mind skills of scientific thinking and logical
