## Back Channel A Novel

**British Columbia**

## **Back Channel A Novel:**

*The Back Channel* William Joseph Burns, 2019 As a distinguished and admired American diplomat of the last half century Burns has played a central role in the most consequential diplomatic episodes of his time from the bloodless end of the Cold War and post Cold War relations with Putin's Russia to the secret nuclear talks with Iran. Here he recounts some of the seminal moments of his career drawing on newly declassified cables and memos to give readers a rare inside look at American diplomacy in action and of the people who worked with him. The result is a powerful reminder of the enduring importance of diplomacy.

adapted from jacket     **Back Channel** Stephen L. Carter, 2015-05-26 October 1962 The Soviet Union has smuggled missiles into Cuba. Kennedy and Khrushchev are in the midst of a military face off that could lead to nuclear conflagration. The only way for the two leaders to negotiate safely is to open a back channel by way of a clandestine emissary. The fate of the world rests unexpectedly on the shoulders of that emissary: nineteen year old Cornell sophomore Margo Jensen. Pursued by the hawks on both sides and protected by nothing but her own ingenuity and courage, Margo is drawn ever more deeply into the crossfire as the clock ticks toward World War III. Stephen L. Carter's gripping novel *Back Channel* is a brilliant amalgam of fact and fiction, a suspenseful reimagining of the events that became the Cuban Missile Crisis.

*Betting the Company* Andrew Trask, Andrew DeGuire, 2013-04-19 Where the fate of a company is on the line in a negotiation, legal and business teams must work seamlessly to reach a successful conclusion. Unfortunately, there's often a gap between lawyers who are typically untrained in business strategy and business executives who lack basic knowledge of contract law and regulations. In *Betting the Company: Complex Negotiation Strategies for Law and Business*, Andrew Trask and Andrew DeGuire offer a thorough introduction to enable lawyers and business people to understand the theoretical concepts and to apply practical tools to conduct a successful multi-faceted negotiation. The authors, both of whom have extensive experience conducting high-stakes negotiations, explain the different strategic considerations negotiators face from the pressures on individuals representing a larger group to the difficulties that arise from clashes of corporate culture. They also discuss the specific challenges raised by negotiations that involve multiple parties, multiple issues, and take place over longer periods of time. Throughout this illuminating book, Trask and DeGuire provide concrete practical advice on how best to guide companies through the most difficult negotiations.

*Teaching Historical Narratives* Jon A. Levisohn, 2024-11-28 With this book, Jon Levisohn argues that current history education is set up in a way that sees students of history at one end of a continuum with the academic experts in the field of history at the other, and where the goal of history education is to help students to think like historians. Building on a critical engagement with Carl Hempel, Hayden White, and David Carr, as well as contemporary work in virtue epistemology, Levisohn proposes a new theory of historiography which serves as a set of guidelines for the teaching and learning of history. According to the theory, the work of historiography is best characterized as a negotiation among narratives weaving together received narratives with new information and ideas in order to construct a

new narrative This negotiation happens with a particular orientation towards negative evidence or flexible disconfirmationism and is assessed according to the openness sensitivity responsibility creativity boldness and humility i e the virtues of historical interpretation The book rethinks the work of history education offering new ways of thinking about the goals of the teaching of history namely in terms of the cultivation of the interpretive virtues

[Back Channel to Cuba](#) William M. LeoGrande,Peter Kornbluh,2015-09-14 History is being made in U S Cuban relations Now in paperback and updated to tell the real story behind the stunning December 17 2014 announcement by President Obama and President Castro of their move to restore full diplomatic relations this powerful book is essential to understanding ongoing efforts toward normalization in a new era of engagement Challenging the conventional wisdom of perpetual conflict and aggression between the United States and Cuba since 1959 Back Channel to Cuba chronicles a surprising untold history of bilateral efforts toward rapprochement and reconciliation William M LeoGrande and Peter Kornbluh here present a remarkably new and relevant account describing how despite the intense political clamor surrounding efforts to improve relations with Havana negotiations have been conducted by every presidential administration since Eisenhower s through secret back channel diplomacy From John F Kennedy s offering of an olive branch to Fidel Castro after the missile crisis to Henry Kissinger s top secret quest for normalization to Barack Obama s promise of a new approach LeoGrande and Kornbluh uncovered hundreds of formerly secret U S documents and conducted interviews with dozens of negotiators intermediaries and policy makers including Fidel Castro and Jimmy Carter They reveal a fifty year record of dialogue and negotiations both open and furtive that provides the historical foundation for the dramatic breakthrough in U S Cuba ties

[Congressional Record](#) United States. Congress,1974 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

[Backdoor Lawmaking](#) Melinda N. Ritchie,2023 Civics textbooks focus on how Congress makes policy through the legislative process but the reality is that members of Congress have limited opportunities to advance their policy priorities In fact less than five percent of the bills that are introduced in Congress become law Even the most tenacious legislators are confronted by bicameralism partisan gridlock chamber procedures leadership s control of the agenda and the diverse

interests of 534 other members of Congress. What strategies do lawmakers have for navigating these challenges? In this book Melinda N. Ritchie reveals how members of Congress use the federal bureaucracy as a backdoor for policymaking. Today more law in the United States is made by unelected bureaucrats through federal agency regulations than with congressional statute. Ritchie argues that the bureaucracy's growing role in policymaking offers lawmakers a discreet way to represent controversial interests outside of the formal constraints of Congress. Lawmakers overcome obstacles in the legislative process by substituting agency regulations for legislation and pressuring agencies to make policy changes that would not pass in Congress. Drawing on an original dataset constructed from records obtained under the Freedom of Information Act, Ritchie traces the interactions between members of Congress and federal agencies to illustrate how these communications function as part of a lawmaker's overarching strategy for policymaking. *Original and timely Backdoor Lawmaking* explains how members of Congress exploit the separation of powers and evade the lawmaking process established in the US Constitution.
