*Fighting the US Youth Sex Trade* Carrie N. Baker, 2018-09-27 Campaigns against prostitution of young people in the United States have surged and ebbed multiple times over the last fifty years Fighting the US Youth Sex Trade Gender Race and Politics examines how politically and ideologically diverse activists joined together to change perceptions and public policies on youth involvement in the sex trade over time reframing juvenile prostitution of the 1970s as commercial sexual exploitation of children in the 1990s and then as domestic minor sex trafficking in the 2000s Based on organizational archives and interviews with activists Baker shows that these campaigns were fundamentally shaped by the politics of gender race and class and global anti trafficking campaigns The author argues that the very frames that have made these movements so successful in achieving new laws and programs for youth have limited their ability to achieve systematic reforms that could decrease youth vulnerability to involvement in the sex trade

## **Fentanyl Nation**

Ryan Hampton, 2024-09-24 A passionate call to abandon ineffective drug war policies reframe addiction as a public health issue and end the Fentanyl crisis The American overdose crisis has reached record breaking heights preventable overdoses are now responsible for more annual deaths than traffic accidents suicide or gun violence Fentanyl a potent inexpensive and easy to manufacture synthetic opioid has thoroughly contaminated the drug supply and while it frequently makes front page news across the country it remains poorly understood by policymakers and the public Why despite all of our efforts to raise awareness and billions of dollars of investments does this emergency keep getting worse In Fentanyl Nation recovery advocate Ryan Hampton separates the facts from the fiction surrounding Fentanyl and shows how overdose deaths are ultimately policy failures Instead of investing in education harm reduction effective treatment and recovery we have doubled down on more police more incarceration and harsher penalties for those caught in the grip of addiction Yet history has shown time and time again that it is impossible to arrest our way out of a public health crisis the government used the same strategy to fight the crack cocaine epidemic of the 80s and 90s and it only resulted in racially disparate policing and the destruction of marginalized communities This urgent and informative manifesto reveals how prejudice discrimination and stigma have been codified into our drug laws and calls for a compassionate and evidence based approach that would address the core causes of addiction and save countless lives We can end this crisis but only if we get out of our own way
