Fighting the US Youth Sex Trade Carrie N. Baker, 2018-09-27 Campaigns against prostitution of young people in the United States have surged and ebbed multiple times over the last fifty years *Fighting the US Youth Sex Trade* Gender Race and Politics examines how politically and ideologically diverse activists joined together to change perceptions and public policies on youth involvement in the sex trade over time reframing juvenile prostitution of the 1970s as commercial sexual exploitation of children in the 1990s and then as domestic minor sex trafficking in the 2000s Based on organizational archives and interviews with activists Baker shows that these campaigns were fundamentally shaped by the politics of gender race and class and global anti trafficking campaigns The author argues that the very frames that have made these movements so successful in achieving new laws and programs for youth have limited their ability to achieve systematic reforms that could decrease youth vulnerability to involvement in the sex trade *Somebody's Daughter* Julian Sher, 2013 With an updated afterword by the author **Law of the Internet, 4th Edition** Delta & Matsuura, 2017-01-01 *Law of the Internet Fourth Edition* is a two volume up to date legal resource covering electronic commerce and online contracts privacy and network security intellectual property and online content management secure electronic transactions cryptography and digital signatures protecting intellectual property online through link licenses frame control and other methods online financial services and securities transactions antitrust and other liability The *Law of the Internet Fourth Edition* quickly and easily gives you everything you need to provide expert counsel on Privacy laws and the Internet Ensuring secure electronic transactions cryptography and digital signatures Protecting intellectual property online patents trademarks and copyright Electronic commerce and contracting Online financial services and electronic payments Antitrust issues including pricing bundling and tying Internal network security Taxation of electronic commerce Jurisdiction in Cyberspace Defamation and the Internet Obscene and indecent materials on the Internet Regulation of Internet access and interoperability The authors George B Delta and Jeffrey H Matsuura two Internet legal experts who advise America's top high tech companies demonstrate exactly how courts legislators and treaties expand traditional law into the new context of the Internet and its commercial applications with all the citations you'll need The *Law of the Internet* also brings you up to date on all of the recent legal commercial and technical issues surrounding the Internet and provides you with the knowledge to thrive in the digital marketplace Special features of this two volume resource include timesaving checklists and references to online resources **The Outcast Daughter** Justin Toppins, 2020-06-04 Have you ever watched the news and been so haunted by a story that you had to know more about those involved In the documentary film *Irreclaimable* this is exactly what happens to Justin Toppins For more than a year he sets to learn about the dark world of sex trafficking He sits down with the victims sex workers and even law enforcement He starts with the hope of simply learning from each person's story but soon finds it impossible to separate the harrowing tales from the kind and thoughtful people who lived through them *HIDDEN*
