Lesson title: Classroom objects (lesson 2)

Step 1 — Desired Results
<p><i>Standard Outcomes for Learning (ACTFL Standard 1.1)— Answer s the question, what should students know, understand, and be able to do as a result of the lesson?</i></p> <ul style="list-style-type: none"> Students will be able to identify and read the names of some classroom objects in Arabic. (book, bag, pencil, compasses, stapler, chair and map) (كتاب، حقيبة، دباسة، مكرسي، مقترية) Say what they can see from classroom objects in Arabic and draw them.
Step 2 — Assessment Evidence
<p><i>Performance task— What will students do to show what they have learned?</i></p> <ul style="list-style-type: none"> Students will say, read and write the names of some classroom objects in Arabic. Students will talk about some classroom objects. Students will ask and answer about some classroom objects. Students will draw cards for classroom objects.
Step 3 — Learning Plan
<p><i>Learning activities - Answer s the question, how do I teach it?</i></p> <ul style="list-style-type: none"> After greeting students, I revise yesterday's classroom objects by using flashcards and the smart TV. (pen, chair, protractor, eraser and chalk) I ask students what can they find at their bags. I introduce the names of some classroom objects in Arabic using some real objects, flashcards and the classroom TV (with the help of Airplay). Students repeat the names of classroom objects in chorus and individually. I show students the flashcards for different classroom objects and they say their names. I play a memory game with the students. I ask two students to say as many words as she/he can about classroom objects. The winner is the students who can say more classroom words. I continue the game with other students. I divide students into two groups to talk about the usage of different classroom objects. Quiz- quiz Trade. I give each student a card. I ask each student to write a question (about a classroom object) on the front and answer on the . they leave their places to find a partner. One

progress to move your students to mastery of standards while differentiating to meet their diverse needs Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike **Hand Lettering Made Easy** Debra Beagle, 2004 **Learning by Design Lesson Plan Template** Molly Rose, 2020-03-13 This How To book is different Unlike every other book you'll read with titles like How To Craft The Perfect Lesson Plan in 165 Incredibly Simple Steps this book is different It's a simple How To guide for creating a lesson plan that's right for you and your students and also an easy to follow workbook We'll discuss what exactly a lesson plan is and why you even need one We'll then go on to look at the process for creating a lesson plan including the questions you need to consider so that you don't forget anything important Then we've got 60 lesson plan templates for you to follow with a double page layout so that you have plenty of space for all your notes We've even included some Further Notes pages at the back for anything else you need to jot down Teaching students of any age is both a challenging and daunting prospect With a well thought out lesson plan in place anticipating the questions you'll face AND the answers it will be much less daunting and much more exciting Good luck Molly **Standards Based Lesson Plan Generator** Rajani Bala Thota, 2011 The goal of this thesis is to provide teachers with an on line web based interface to create a lesson plan that reflects national and state standards and best practices This application is a tool to create lesson plans for teachers which makes it easier for them to employ a backwards design in lesson planning and to make it fit their lesson planning within the framework of American Council on the Teaching of Foreign Languages ACTFL standards and the new California World Language Content Standards for California Public Schools **Engineering**, 1896
