*Reckoning with History* Jim Downs, Erica Armstrong Dunbar, T. K. Hunter, Timothy Patrick McCarthy, 2021-08-03

Reckoning with History brings together original essays from a diverse group of historians who consider how writing about the past can engage with the urgent issues of the present. The contributors, all former students of the distinguished Columbia University historian Eric Foner, explore the uses and politics of history through key episodes across a wide range of struggles for freedom. They shed new light on how different groups have defined and fought for freedom throughout American history, as well as the ways in which the ideal of freedom remains unrealized today. Covering a broad range of topics, these essays offer insight into how historians practice their craft in different ways and illuminate what it means to be a socially and politically engaged historian.

*The Lyceumite and Talent*, 1912     **The Routledge History of American Sport** Linda J. Borish, David K.

Wiggins, Gerald R. Gems, 2016-10-04 The Routledge History of American Sport provides the first comprehensive overview of historical research in American sport from the early Colonial period to the present day. Considering sport through innovative themes and topics such as the business of sport, material culture and sport, the political uses of sport and gender and sport, this text offers an interdisciplinary analysis of American leisure. Rather than moving chronologically through American history or considering the historical origins of each sport, these topics are dealt with organically within thematic chapters, emphasizing the influence of sport on American society. The volume is divided into eight thematic sections that include detailed original essays on particular facets of each theme. Focusing on how sport has influenced the history of women, minorities, politics, the media and culture, these thematic chapters survey the major areas of debate and discussion. The volume offers a comprehensive view of the history of sport in America, pushing the field to consider new themes and approaches as well. Including a roster of contributors renowned in their fields of expertise, this groundbreaking collection is essential reading for all those interested in the history of American sport.

**Baseball Film** Aaron Baker, 2022-01-14 Baseball has long been viewed as the Great American Pastime, so it is no surprise that the sport has inspired many Hollywood films and television series. But how do these works depict the game, its players, fans and place in American society? This study offers an extensive look at nearly one hundred years of baseball-themed movies, documentaries and TV shows. Film and sports scholar Aaron Baker examines works like *A League of Their Own* (1992) and *Sugar* (2008), which dramatize the underrepresented contributions of female and immigrant players alongside classic baseball movies like *The Natural* that are full of nostalgia for a time when native-born white men could use the game to achieve the American dream. He further explores how biopics have both mythologized and demystified such legendary figures as Ty Cobb, Babe Ruth, Lou Gehrig, Jackie Robinson and Fernando Valenzuela. *The Baseball Film* charts the variety of ways that Hollywood presents the game as integral to American life, whether showing little league as a site of parent-child bonding or depicting fans' lifelong love affairs with their home teams. Covering everything from *Bull Durham* (1988) to *The Bad News Bears* (1976),

this book offers an essential look at one of the most cinematic of all sports      **Our Presidents and Their Office** William Estabrook Chancellor,1912      **Abraham Lincoln; a History, by John G.
