**Disablement** Thomas Abrams, 2016-04-23 This book presents the early existential phenomenology of Martin Heidegger as a way to reformulate academic disability studies and activist disability politics It redresses the almost categorical neglect of human difference in the philosophy of Heidegger It proceeds by applying a revised version of his phenomenology to social policy aimed to get disabled persons to work and to methods in rehabilitation science intended to be more client friendly Phenomenological philosophy is extended to the topic of disability while at the same time two key concerns facing disability studies are addressed the roles of capitalism in disablement and of medical practice in the lives of disabled persons By reframing disability as a lived way of being in the world rather than bodily malfunction the book asks how we might rethink medicine and capitalism in democratic ways It aims to transform Heidegger s work in light of his troubling politics to produce a democratic social theory of human difference

**Disability and Labour in the Twentieth Century** Radu Harald Dinu, Staffan Bengtsson, 2022-12-30 This volume puts disability and labour at the centre of historical enquiry It offers fresh perspectives on the history of disability and labour in the twentieth century and highlights the need to address the topic beyond regional boundaries Bringing together historians and disability scholars from a variety of disciplines and regions the chapters investigate various historical settings ranging from work cooperatives to disability associations and informal workplaces and analyse multiple meanings of labour in different political and economic systems through the lens of disability The book s contributors demonstrate that the nexus between labour and disability in modern industrialised societies resists easy generalisations as marginalisation and integration were often two sides of the same coin While the experience of many disabled people has been marked by exclusion from mainstream production labour also became a vehicle for integration and emancipation Addressing one of the research gaps of the disability history field which has long been dominated by British and North American perspectives the book sheds light on less studied examples from Scandinavian countries and Eastern Europe including Czechoslovakia Poland the Soviet Union Bulgaria and Romania Cutting across national cultural and class divides the volume provides a springboard for reflections on common experiences of disability and labour during the twentieth century It will be of interest to all scholars and students working in the field of disability studies sociology and labour history

**Disability and Political Representation** Elizabeth Evans, Stefanie Reher, 2024-03-15 Disability and Political Representation explores how disabled people experience the various stages and aspects of the representation process drawing upon extensive empirical research and a variety of qualitative and quantitative data It discusses why increasing the number of disabled politicians matters not only as a matter of justice and equality but also to better represent the issues and interests of importance to disabled people Evans and Reher identify a variety of ableist barriers prevent disabled people from fully participating in the political process from disenfranchisement and inaccessible polling stations to

prejudice within parties and a lack of financial support for candidates who require adjustments The work shows that while the preferences of disabled citizens are currently under represented in parliament disabled representatives often draw on their lived experience to advocate for their interests The concept of experiential representation is developed to help scholars and practitioners better navigate the concept of political representation specifically as it relates to disability Thus the book explores how disability can help us think about the contours of political representation It presents and analyses a range of diverse and original data including qualitative data generated from interviews with disabled politicians and activists in the UK quantitative survey data on the political attitudes and participation of disabled citizens from across Europe and data from survey experiments examining voter perceptions of disabled politicians in the UK and the US **The Oxford Handbook of**

**the Sociology of Disability** Robyn Lewis Brown,Michelle Maroto,David Pettinicchio,2023 The Oxford Handbook of the Sociology of Disability provides foundational chapters on where we have been where we are now and where we must go with research on and in the sociology of disability In doing so the Handbook chapters wrestle with important questions around inequality poverty exclusion political activism and empowerment cultural attitudes global policies and practices and much more Disability and Social Change Jeanette Robertson,2020-07-10T00:00:00Z This edited collection uses a critical theory

perspective and draws on expertise from a range of contemporary policy and practice areas Contributors include people with disabilities family members researchers academics and practitioners This book is an ideal text for students of social work human services child and youth care and disability studies Chapters include first person accounts from persons with disabilities perspectives of families and historical perspectives as well as a critical exploration of demographics human rights issues disability legislation and policy in Canada theoretical approaches to disability intersectionality and disability Aboriginal people and disability mental health disability principles of anti ableist practice advocacy and strategies for change This book offers as a fresh Canadian perspective on disability from a critical lens challenging and inspiring students and practitioners alike to think outside the box and to examine their own attitudes and values toward disability ensuring that they do not inadvertently impose ableist and oppressive practices on one of Canada s most marginalized populations

**Disability Politics and Care** Christine Kelly,2016-01-15 Disability Politics and Care examines a provincial direct funding program to illuminate what happens when people with disabilities take control of their own care arrangements In addition to investigating responses from a wide range of stakeholders Christine Kelly reflects on the broader social and political implications of these types of programs She probes the divide that exists between rejections of care by disability activists on the one hand and attempts by feminists to value gendered forms of labour on the other Rather than trying to find common ground between these viewpoints Kelly explores how maintaining a tension between them could positively transform the understanding and practice of care Enlivened by the voices of disabled people attendants and informal supports this book uses one independent living program as a starting point for untangling much larger philosophical theoretical and material
