Mining Author Cocitation Data with SAS Enterprise Guide Mohamed Ridda Laouar, 2015-04-01 Author cocitation analysis
ACA is a subfield of informetrics which is a broader term referring to the quantitative study of retrieval and processing
bibliometric data collected from all types of communication media including journals books and conference proceedings
While ACA is one of the few research methodologies that transcend the individual field of inquiry and despite its usefulness
and capabilities to reveal a larger vista hidden in bibliographic databases it is not a particularly popular research tool in
some academic disciplines This book covers all essential ACA topics for graduate students and researchers who want to learn
the basics and the research techniques to delineate the intellectual structure of various academic disciplines compare
cumulative research traditions demonstrate theoretical differences between competing approaches and to trace a paradigm
shift in various academic disciplines over time
