Behavioral, Social, and Emotional Assessment of Children and Adolescents Sara Whitcomb, 2017-08-30 Generally recognized as the standard work in its field, *Behavioral, Social, and Emotional Assessment of Children and Adolescents* is a comprehensive guide for conducting conceptually sound, culturally responsive, and ecologically oriented assessments of students' social and emotional behavior. Written for graduate students, practitioners, and researchers in the fields of school psychology, child clinical psychology, and special education, it will also be of interest to those in related disciplines. Building on the previous editions, this fifth edition includes updated references to DSM 5 and federal standards, as well as an integrated approach to culturally competent assessment throughout the text. In Part I, *Foundations and Methods of Assessment*, the author provides a general foundation for assessment practice and outlines basic professional and ethical issues, cultural considerations, and classification and diagnostic problems. Part II, *Assessment of Specific Problems, Competencies, and Populations*, includes material on assessing specific social/emotional behavior domains, including externalizing problems, internalizing problems, social skills, and social/emotional strengths, and the unique needs of young children. A chapter on school-wide screening methods was also added with this edition. By weaving together the most recent research evidence and common application issues in a scholarly yet practical manner, *Behavioral, Social, and Emotional Assessment of Children and Adolescents* continues to be the pre-eminent foundation for assessment courses.

The Achievement Test Desk Reference Dawn P. Flanagan, 2006-06-30 The Second Edition of this critically acclaimed reference features the most up-to-date versions of assessment instruments to measure individual achievement and learning disabilities. The authors' pragmatic approach offers practitioners an innovative, systematic assessment framework that applies Cattell-Horn-Carroll (CHC) cognitive theory and blends cognitive testing and Response to Intervention (RTI) methods into one seamless process for diagnosing learning disabilities. Replete with case studies, checklists, and worksheets, this reference assists practitioners in choosing appropriate tests, organizing comprehensive assessments, and interpreting results using a cross-battery approach. This reference concludes with fifteen appendices providing practitioners with a host of useful information and tools, including reproducible worksheets, conversion tables, and learning disability resources. Grounded in CHC theory and a cross-battery approach to assessment, this is an essential resource for school psychologists and other practitioners who need to assess learning disabilities.
