United States Government Publications Monthly Catalog ,1947-03 *Moody's Manual of Investments: American and Foreign* ,1948 *3D Recording and Interpretation for Maritime Archaeology* John K. McCarthy,Jonathan Benjamin,Trevor Winton,Wendy van Duivenvoorde,2019-03-06 This open access peer reviewed volume was inspired by the UNESCO UNITWIN Network for Underwater Archaeology International Workshop held at Flinders University Adelaide Australia in November 2016 Content is based on but not limited to the work presented at the workshop which was dedicated to 3D recording and interpretation for maritime archaeology The volume consists of contributions from leading international experts as well as up and coming early career researchers from around the globe The content of the book includes recording

and analysis of maritime archaeology through emerging technologies including both practical and theoretical contributions Topics include photogrammetric recording laser scanning marine geophysical 3D survey techniques virtual reality 3D modelling and reconstruction data integration and Geographic Information Systems The principal incentive for this publication is the ongoing rapid shift in the methodologies of maritime archaeology within recent years and a marked increase in the use of 3D and digital approaches This convergence of digital technologies such as underwater photography and photogrammetry 3D sonar 3D virtual reality and 3D printing has highlighted a pressing need for these new methodologies to be considered together both in terms of defining the state of the art and for consideration of future directions As a scholarly publication the audience for the book includes students and researchers as well as professionals working in various aspects of archaeology heritage management education museums and public policy It will be of special interest to those working in the field of coastal cultural resource management and underwater archaeology but will also be of broader interest to anyone interested in archaeology and to those in other disciplines who are now engaging with 3D recording and visualization
