**Accelerating New Food Product Design and Development** Jacqueline H. Beckley, Leslie J. Herzog, M. Michele Foley, 2017 *Organic Production and Food Quality* Robert Blair, 2012-01-03 The internet is rife with biased and unsubstantiated claims from the organic industry and the treatment of issues such as food safety and quality by the media if it bleeds it leads tends to have a negative impact on

consumer perceptions about conventional food Until recently more and more consumers in many countries were opting to buy organic food over conventional food resulting in a radical shift in food retailing This was due to concerns over chemical residues food poisoning resulting in recalls food scares such as mad cow disease issues like gene modified GM foods antibiotics hormones cloning and concerns over the way plants and animals are being grown commercially as food sources As a result there has been an expansion of the organic industry and the supply of organic foods at farmers markets supermarkets and specialty stores Organic Production and Food Quality A Down to Earth Analysis is the first comprehensive book on how organic production methods influence the safety and quality of foods based on an unbiased assessment of the latest scientific findings The title is a must have for everyone working within the food industry Comprehensive explanation of organic production methods and effects on the safety and quality of foods Authoritative unbiased and up to date examination of relevant global scientific research Answers the questions of whether organic food is more nutritious and or more healthy

Statistical Methods for Food Science John A. Bower, 2013-06-21 The recording and analysis of food data are becoming increasingly sophisticated Consequently the food scientist in industry or at study faces the task of using and understanding statistical methods Statistics is often viewed as a difficult subject and is often avoided because of its complexity and a lack of specific application to the requirements of food science This situation is changing there is now much material on multivariate applications for the more advanced reader but a case exists for a univariate approach aimed at the non statistician This second edition of Statistical Methods for Food Science provides a source text on accessible statistical procedures for the food scientist and is aimed at professionals and students in food laboratories where analytical instrumental and sensory data are gathered and require some form of summary and analysis before interpretation It is suitable for the food analyst the sensory scientist and the product developer and others who work in food related disciplines involving consumer survey investigations will also find many sections of use There is an emphasis on a hands on approach and worked examples using computer software packages and the minimum of mathematical formulae are included The book is based on the experience and practice of a scientist engaged for many years in research and teaching of analytical and sensory food science at undergraduate and post graduate level This revised and updated second edition is accompanied by a new companion website giving the reader access to the datasets and Excel spreadsheets featured in the book Check it out now by visiting [www.wiley.com/go/bower/statistical](http://www.wiley.com/go/bower/statistical) or by scanning the QR code below
