Programs for Advanced Study of Mathematics and Science in American High Schools,2002-08-06 This book takes a fresh look  
at programs for advanced studies for high school students in the United States with a particular focus on the Advanced  
Placement and the International Baccalaureate programs and asks how advanced studies can be significantly improved in  
general It also examines two of the core issues surrounding these programs they can have a profound impact on other  
components of the education system and participation in the programs has become key to admission at selective institutions  
of higher education By looking at what could enhance the quality of high school advanced study programs as well as what  
precedes and comes after these programs this report provides teachers parents curriculum developers administrators college  
science and mathematics faculty and the educational research community with a detailed assessment that can be used to
