Wildermuth,2022-11-16 This book studies American science fiction films depicting invasions of the USA and Earth by extra terrestrials within the

context of imperialism from 1950-2020. It shows how such films imagine America and its allies as objects of colonial control. This trope enables filmmakers to explore the ethics of American interventionism abroad either by defending the status quo or by questioning interventionism. The study shows how these films comment on American domestic hegemonic practices regarding racial or gender hierarchies as well as hegemonic practices abroad. Beginning with the Cold War consensus in the 1950s the study shows how hegemony at home and abroad promotes division in the culture.

### **A Commentary on the Holy Scriptures**

Johann Peter Lange, 1874 *The Archaeology of the Medieval Cathedral and Priory of St Mary, Coventry*

Margaret Rylatt, Paul Mason, 2003 This report describes excavations at the St Mary's Priory and cathedral church Coventry conducted between 1999 and 2003 as part of the Phoenix Initiative Coventry's Millennium Project. The Priory was located on the site of a late Saxon Abbey whose benefactors were Leofric Earl of Mercia and his wife Lady Godiva. Its church became a cathedral in the early 12th C AD and the priory grew to become one of the largest monastic communities in the region. It was suppressed on 15th January 1539 and the cathedral became the only one in the Kingdom to be destroyed as a result of dissolution. This excavation report describes the history of the buildings and then presents new discoveries about the cathedral, the monastic house, the service buildings and priory mill. Detailed studies of finds include chapters on floor tiles, apocalyptic paintings in the Chapter House, pottery, coins, leather, wood, glass and human bone.
