[Lesson Design for Differentiated Instruction, Grades 4-9](#) Kathy Tuchman Glass, 2009-01-14. The book provides helpful background information as well as a wide variety of examples of differentiated lessons, resource guides, reproducible templates and a selection of grading tools ranging from rubrics to graphic organizers. Allan Varni, Instructor and Regional Coordinator, Division of Continuing Education, University of San Diego. Glass examines the constructs of masterful teaching and makes them accessible to all. Her intensely practical and forthright approach allows readers to immediately translate the concepts of differentiation into their classrooms. Modell Marlow Andersen, Director of Educational Services, Hillsborough City School District, CA. Develop effective differentiated lessons that meet students' individual learning needs. Differentiation allows teachers to target student needs and engage all students according to their learning preferences. Designed for teachers who are new to differentiating instruction, this book provides step by step guidance for creating meaningful lessons in language arts, math, science and social studies at the upper elementary and middle school levels. Kathy Tuchman Glass helps teachers develop confidence and expertise in differentiating lessons, units and assessments and provides a detailed planning template, numerous examples and reproducibles. This user friendly resource provides an overview of differentiation based on the backward design model. Discusses strategies for differentiating content, process and product. Helps teachers organize lessons around guiding or essential questions for students to explore. Shows how to take students' learning characteristics, readiness, interests, learning styles into consideration when planning lessons. **Lesson Design for Differentiated Instruction, Grades 4-9** helps teachers plan differentiated lessons that will promote learning for every student. [\*\*Educational Assessment for the Elementary and Middle School Classroom\*\*](#) Gary D. Borich, Martin L. Tombari, 2004. Brief and practical, this popular book focuses on what classroom assessments are and how to do them, and bridges the gap between testing a learner's knowledge of particular information and measuring his or her ability to transfer knowledge and think strategically. Coverage encompasses all of the issues surrounding the use of classroom assessments: validity, reliability, bias, impact through targeted discussions that address everything prospective teachers need to know completely yet succinctly. The authors offer a comprehensive menu of techniques for assessing not only what learners know but also how they think, how they perform and how they apply what they know within authentic real world contexts. For individuals administering tests and implementing other
