A World Called Camelot Arthur H. Landis, 1978-11-07 **World Called Camelot** Arthur Landis, 1982-11-01 **Future and Fantastic Worlds** Sheldon Jaffery, 1987-01-01

Future and Fantastic Worlds embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data. Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool.

A Bibliography of Modern Arthuriana (1500-2000) Ann F. Howey, Stephen Ray Reimer, 2006

Annotated bibliography of the Arthurian legend in modern English language fiction not only in literary texts but in television music and art. The legend of Arthur has been a source of fascination for writers and artists in English since the fifteenth century when Thomas Malory drew together for the first time in English a variety of Arthurian stories from a number of sources to form the Morte Darthur. It increased in popularity during the Victorian era when after Tennyson's treatment of the legend not only authors and dramatists but painters musicians and film makers found a source of inspiration in the Arthurian material. This interdisciplinary annotated bibliography lists the Arthurian legend in modern English language fiction from 1500 to 2000 including literary texts film television music visual art and games. It will prove an invaluable source of reference for students of literary and visual arts general readers collectors librarians and cultural historians indeed by anyone interested in the history of the ways in which Camelot has figured in post medieval English speaking cultures.

ANN F. HOWEY is Assistant Professor at Brock University Canada. STEPHEN R. REIMER is Associate Professor at the University of Alberta Canada.

Science Fiction and Fantasy Book Review Neil Barron, R. Reginald, 2009-11-01

Science Fiction Fantasy Book Review was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. This was the golden era of SF publishing with a thousand titles old and new hitting the stands and the bookshelves each and every year. From the older classics to the newest speculative fiction this was the period when the best and the brightest shined forth their talents. SF FBR included reviews by writers in the field by amateur critics and by litterateurs and University professors. Over a thousand books were covered during the single year of publication many of them having been reviewed nowhere else before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism. Neil Barron is a retired bibliographer and literary critic editor of the acclaimed Anatomy of Wonder series. Robert Reginald was the publisher for twenty five years of Borgo Press and has authored over 110 books of his own.
