**Frankenstein Urbanism** Federico Cugurullo, 2021-05-16 This book tells the story of visionary urban experiments shedding light on the theories that preceded their development and on the monsters that followed and might be the end of our cities The narrative is threefold and delves first into the eco city second the smart city and third the autonomous city intended as a place where existing smart technologies are evolving into artificial intelligences that are taking the management of the city out of the hands of humans The book empirically explores Masdar City in Abu Dhabi and Hong Kong to provide a critical analysis of eco and smart city experiments and their sustainability and it draws on numerous real life examples to illustrate the rise of urban artificial intelligences across different geographical spaces and scales Theoretically the book traverses philosophy urban studies and planning theory to explain the passage from eco and smart cities to the autonomous city and to reflect on the meaning and purpose of cities in a time when human and non biological intelligences are irreversibly colliding in the built environment Iconoclastic and prophetic Frankenstein Urbanism is both an examination of the evolution of urban experimentation through the lens of Mary Shelley s Frankenstein and a warning about an urbanism whose product resembles Frankenstein s monster a fragmented entity which escapes human control and human understanding Academics students and practitioners will find in this book the knowledge that is necessary to comprehend and engage with the many urban experiments that are now alive ready to leave the laboratory and enter our cities

Fox, Nada Mourtada-Sabbah, Mohammed Al Mutawa, 2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few

years both good and bad have directed the world's attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world. This is the process of globalization. New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change. Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their own interests from quite a different perspective on the other exert pressures from conflicting directions. Reconciling these interests in a time of rapid globalization poses enormous challenges. This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas, new technologies and new economies. Brought together by the American University of Sharjah and the Sociological Association of the UAE, the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture, offering views on how these trends interact within the global system.

Seminar paper from the year 2009 in the subject Tourism grade 1-7 Stralsund University of Applied Sciences language English abstract. You can never understand Dubai if you have not been there. But being there is no guaranty for comprehension either. Dubai is the place of the ultimate superlatives. Nothing is impossible and dreams can come true. Like in a modern fairytale in Dubai everything seems to be possible and what shines seems to be made of gold. Skiing in the desert, clubbing in an Islamic country, the famous Palm and upcoming Dubailand to name only some of the numerous attractions Dubai has to offer. I had the great opportunity to be part of an outstanding excursion to the United Arab Emirates with main interest on Dubai and to get an impression of one of the most fascinating destinations in the world. Not only as a tourist but with the possibility to experience Dubai from a different sight. I had the chance to make up my mind about a fascinating city that never sleeps. For this reason my interest in Dubai arose and makes me take a closer look on Dubai. How did Dubai become what it is today? How can it fulfil its own premises to still grow and develop? And how can a single person His Highness Sheikh Mohammed bin Rashid Al Maktoum be responsible for all this? With the following assignment I try to answer these questions by giving an overview of Dubai's history, the current touristic situation in Dubai and the vision of Dubai in 2015.
