D'Zurilla,Edward Chin-Ho Chang,Lawrence J. Sanna,2004-01-01 We put together a book that would offer readers multiple perspectives insights and directions in understanding social problem solving as an important theory that has driven wide ranging scientific research and as an important means of training to empower and elevate the lives of individuals We believe that social problem solving can help individuals free themselves from the problems they face or the distress that these problems cause We recognize that some problems may be difficult or impossible to solve but we believe that considerable value remains in understanding and promoting effective social problem solving to foster the novel insights and methods in which problems that seem insurmountable ultimately may be conquered in incremental steps across time and across individuals Moreover we believe that problems can be solved in different ways When problematic situations or circumstances are manageable or controllable a good problem solver tries to find ways to change them for the better However when such situations or circumstances are unchangeable or uncontrollable one can still use problem solving to find ways to accept and tolerate with less distress that which cannot be changed or controlled Preface PsycINFO Database Record c 2005 APA all rights reserved
