2012 the American Academy of Pediatrics and the Center for Disease Control and Prevention declared the failure to breastfeed a public health issue thus placing bottle feeding on par with smoking obesity and unsafe sex Recently politicians too have launched highly visible breastfeeding initiatives such as former New York Mayor Michael Bloomberg's well publicized Latch On campaign And meanwhile women who don't breastfeed their babies have found themselves with a lot of explaining to do Physicians public health officials and other mothers are pressuring them to breastfeed even though the best science shows that the advantages of doing so are minimal at best What is going on In Lactivism Courtney Jung offers the most deeply researched and far reaching critique of the breastfeeding imperative to date Drawing on a wide range of evidence from rigorously peer reviewed scientific research to interviews with physicians politicians business interests activists social workers and mothers from across the social and political spectrum Jung presents an eye opening account of how a practice that began as an alternative to Big Business has become Big Business itself
