Presentation Patterns is the first book on presentations that categorizes and organizes the building blocks or patterns that you'll need to communicate effectively using presentation tools like Keynote and PowerPoint Patterns are like the lower level steps found inside recipes they are the techniques you must master to be considered a master chef or master presenter You can use the patterns in this book to construct your own recipes for different contexts such as business meetings technical demonstrations scientific expositions and keynotes just to name a few Although there are no such things as antirecipes this book shows you lots of antipatterns things you should avoid doing in presentations Modern presentation tools often encourage ineffective presentation techniques but this book shows you how to avoid them Each pattern is introduced with a memorable name a definition and a brief explanation of motivation Readers learn where the pattern applies the consequences of applying it and how to apply it The authors also identify critical antipatterns clichés fallacies and design mistakes that cause presentations to disappoint These problems are easy to avoid once you know how Presentation Patterns will help you Plan what you'll say who you'll say it to how long you'll talk and where you'll present Perfectly calibrate your presentation to your audience Use the storyteller's narrative arc to full advantage Strengthen your credibility and avoid

mistakes that hurt it Hone your message before you ever touch presentation software Incorporate visuals that support your message instead of hindering it Create highly effective infodecks that work when you're not able to deliver a talk in person Construct slides that really communicate and avoid Ant Fonts Floodmarks Alienating Artifacts and other errors Master 13 powerful techniques for delivering your presentation with power authority and clarity Whether you use this book as a handy reference or read it from start to finish it will be a revelation an entirely new language for systematically planning creating and delivering more powerful presentations You'll quickly find it indispensable no matter what you're presenting who your audiences are or what message you're driving home
