

## COMMONLY OCCURRING ASA SOFTBALL RULES AND POINTS OF EMPHASIS

### 1. APPEAL PLAYS

An appeal play is a one which the umpire may not make a call until a player or manager brings it to the umpire's attention. Examples are: a) a base runner missing a base or touching the white portion only of the double first base when a play is being made on the batter-runner at first base; b) a base runner leaving a base before a caught fly is touched; c) overrunning first base and attempting to run to second; and d) batting out of order.

In *all* games, once time has been granted, a dead ball appeal may be made. Once the ball has been returned to the infield and time has been called, any fielder (including the pitcher or catcher), with or without possession of the ball, may make a verbal appeal on a runner missing a base or leaving a base too soon. The plate umpire should acknowledge the appeal and the administering umpire then make a decision on the play. Base runners cannot leave their base during this period as the ball remains dead until the next pitch.

Live ball appeals are also allowed in both FP and SP. Remember, however, that throwing to a base while in contact with the pitcher's plate while the ball is alive constitutes an illegal pitch and an appeal can no longer be made.

### 2. BASE PATH

The base path is three feet either side of a direct line from one base to another. The runner does not need to run in the base path unless a play is being made on him/her. In running the bases, a runner establishes the base path, i.e., batter-runner rounds first base on the way to second, the base path is on an arc. The ball remains in play if a base runner is called out for running outside the base path to avoid a tag.

### 3. BAT INFORMATION

Bats used in the MSCR Adult Softball Program must either bear the Amateur Softball Association (ASA) approved 2000 certification mark, the 2004 certification mark or the new certification mark for 2013 and Beyond for Slow Pitch and the bat must also appear on the ASA approved softball bat list. The approved bat list can be viewed on the ASA website, [www.asasoftball.com](http://www.asasoftball.com) and is available at each MSCR softball diamond. This site also can be linked from the MSCR website, [www.msqr.org](http://www.msqr.org). The ASA no longer publishes a comprehensive list of "banned bats". A bat manufactured prior to 2000 will be allowed if, in the sole opinion and discretion of the umpire, it would comply with the ASA bat performance standards, if tested. The bat shall be marked "Official Softball" by the manufacturer or, in the judgment of the umpire, had the words "Official Softball" on it at one time.

The OFFICIAL BAT shall meet all the requirements of ASA Rule 3, Section 1. – the highlights of the rule are summarized below:

- **The Official Bat** shall be no more than 34 inches long nor exceed 38 ounces in weight. It shall be free of burrs, dents, cracks, sharp edges and audible rattles and show no signs of excessive wear. The official bat shall not be more than 2.250 inches in diameter at its largest part. The official bat shall be smooth and round to 0.050 inches in diameter and must bear either the ASA 2000 Certification Mark, the ASA 2004 Certification Mark or the new 2013 ASA Softball certification mark for Slow Pitch and must not be listed on the ASA Non-Approved Bat List.
- **The safety knob** will be permanently attached to the bat and may be covered with grip tape. It shall have a diameter of at least 1.6 inches with no sharp edges.
- **The bat handle** will include a grip. The handle region of the bat must have a grip made of cork, grip tape or other synthetic material and must be permanently attached to the bat. No bare metal, wood or composite material may be exposed in the handle region. The grip shall not be less than 6 inches and not more than 15 inches. Any attachment such as a molded finger grip, flare cone, or choke up device must be attached with grip tape. Resin, pine tar or spray substances are permissible on the grip region only.
- **The End Cap** is a cap placed at the barrel end of the bat. The end cap shall be permanently affixed to the bat to prevent alterations to the interior of the bat. It shall be affixed so that it cannot be deleted by anyone other than the manufacturer without damaging or destroying the end cap or barrel.
- **The official bat shall not be an Altered Bat.** An ASA official bat's characteristics shall remain fixed at the time of manufacture and may not be altered in any way other than specifically provided for in (Rule 3, Sec. 1) or as specifically approved by the ASA. Approved bats shall be considered altered if they are rolled, shaved, repainted, weighted or modified to change their characteristics from that produced by the manufacturer. Identifying the bat by means of laser marking, engraving, or painting the name of the player will not make the bat an altered bat.
