Modernity in Colonial India investigates the experiences interpretations and practices of emotions in India between 1857 and the First World War It is based on a large archive of sources in Urdu many explored for the first time These sources range from philosophical and theological treatises on questions of morality to advice literature from journals to newspapers from children s literature to nostalgic descriptions of the courtly culture from sermons to psychological essays Modernity for long has been viewed as a process which went along with a growing control over emotions whether this control was regarded as linked to capitalism to the modern bureaucratic state or interpreted as a process through which external control mechanisms moved inside the subject As the case studies of this book show this discipline has to be viewed together with the transformation from the ideal of balance and harmony to a desire for strong visceral and even indomitable passions showing the youthfulness and vigor of the community Men and a little later also women increasingly strove for an experience of these strong emotions and attempted to inculcate them in others as well and they devised new languages and practices to bring about these feelings

Raisur Rahman,2019-03-21 This volume examines Sayyid Ahmad Khan s life his contribution and legacy in the context of current times The editors engage his writings ideas and activities to read and present his work critically not as a biographical account of his life but approach his work keeping in mind the tumultuous political events and changes of the nineteenth century after the failed revolt of 1857 when Indians were transformed into colonial subjects The collective anxieties of the Indian communities particularly the Muslims cried out for a new local leadership Sayyid Ahmad Khan rose up to this occasion etching the way forward for Indians in general and Muslims in particular Sayyid Ahmad Khan s multifaceted work offers an important understanding for national thinking emerging from the location of the Muslim but it is not a minority voice with vested political interests rather a constructive and integrative voice of relevance even today for addressing difficult problems
