Asian Medical Systems A Comparative Study:

Asian Medical Systems Charles Leslie, 1976 Asian Medical Systems Charles M. Leslie, 1998 *Asian Medical Systems* provide fascinating opportunities to observe directly practices that continue ancient scientific modes of thought and to analyse the historical processes that mediate their relationship to modern science and technology Three great traditions of medical science evolved during antiquity in the Chinese Indian and Mediterranean civilizations all based on humoral conceptions of health and illness Folk curers throughout the world continue to practice humoral medicine but in Asia along educated physicians maintain its learned traditions Thus in these societies the great and little traditions of humoral medicine coexist with cosmopolitan medicine which draws upon modern science and modes of professional organization This volume has been designed to show how research on Asian medicine opens a new field of scholarship the comparative study of medical systems Such a book requires the skills of authors with many kinds of training and those who have contributed essays to this volume are trained in history sociology anthropology public health pharmacology epidemiology cosmopolitan medicine and philosophy **Asian Medical Systems** Charles Leslie, 2022-07-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 *Asian Medical Systems* Charles Leslie, 2023-11-15 *Asian Medical Systems A Comparative Study* explores the enduring relevance and evolution of traditional medical practices in Asia emphasizing their interplay with modern cosmopolitan medicine The book examines three major medical traditions Chinese South Asian Ayurveda and Mediterranean Yunani that developed independently yet share foundational principles such as humoral theories of balance and equilibrium These systems formalized between the fifth century B C and the fifth century A D established authoritative texts professional standards and ethical codes that continue to influence contemporary practices Despite the dominance of cosmopolitan medicine rooted in scientific advancements like germ theory and modern surgery traditional medicine in many Asian countries coexists with modern approaches supported by educational institutions research bodies and professional organizations This pluralism is particularly evident in nations like China and India where both systems are often integrated into healthcare delivery The book highlights the pluralistic and adaptive nature of Asian medical systems which provide insights into how traditional and modern practices complement each other It challenges the perception of cosmopolitan medicine as uniquely scientific arguing that Chinese Ayurvedic and Yunani systems also exhibit rational systematic methods grounded in empirical observation and theory By framing cosmopolitan medicine as transcultural rather than exclusively Western the study underscores its global integration while recognizing the cultural ecological and social dimensions of health in Asia Through multidisciplinary analysis the work illuminates how medical systems evolve and intersect offering a nuanced perspective on

their coexistence and their potential for addressing contemporary health needs This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 Asian Medical Industries Stephan Kloos,Calum Blaikie,2022-02-28 This book develops the concept of Asian Medical Industries as a novel perspective on traditional Asian medicines Complementing and updating existing work in this field the book provides a critical and comparative analytic framework for understanding Chinese Medicine Ayurveda Sowa Rigpa and Japanese Kampo in the 21st century No longer subaltern health resources or conservative systems of traditional knowledge these medicines have become an integral part of modern Asia as innovative lucrative industries Ten original case studies employ insights from anthropology history geography pharmaceutical sciences botany and economics to trace the transformation of Asian medical traditions into rapidly growing and dynamic pharmaceutical industries Collectively these contributions identify this as a major phenomenon impacting Asian and global healthcare economics cultural politics and environments The book suggests that we can learn more about Asian medicines today by approaching them as industries rather than as cultural or epistemic systems Asian Medical Industries is a highly original resource for students and scholars across a range of academic fields such as anthropology history and Asian studies as well as medical practitioners health sector actors and policymakers

Plural Medical Systems In The Horn Of Africa: The Legacy Of Sheikh Hippocrates Leendert Jan Slikkerveer,2013-10-28 First Published in 1990 This study is an important landmark in our understanding of the complexities of pluralistic medical systems It is an unusual study as it provides an overview of the indigenous Oromo and Amhara the regional Greaco Arabic and the cosmopolitan health systems in the Horn of Africa using a variety of approaches and methodologies **Healing Powers and Modernity** Linda H. Connor,Geoffrey Samuel,2001-02-28 What is the current state of traditional healing practices in contemporary Asian societies How are their practitioners faring in the encounter with Western science and its biomedical approach How are traditional healing practices being transformed by the politics of health within the modern nation state and by the processes of commodification typical of modern economies How do patients in Asian societies see the various healing options now open to them The authors all of whom are anthropologists observe the clashes and complementarities between traditional therapies and biomedicine which in its many manifestations is the dominant form of medicine supported by national governments and is emblematic of the modernity to which they aspire Some of the medical traditions such as the sophisticated herbal humoral systems of Tibetan medicine and Indian Ayurveda are becoming well known in the West both through scholarly study and through their increasing popularity with Western patients interested in their healing potential This book adds a new dimension to their study being focused unlike most previous writing on practice rather than textual tradition **Traditional Medical Systems in East Asia** Seung-pyo Hong,1988 The Journal of Asian
