It's only when you take your eyes off the highway that you begin to notice the subtle changes in the landscape. The hills are rolling, the trees are green, the sky is blue. It's a beautiful sight, and it's a relief to see something so familiar after a long drive.

By the way, if you're looking for a good book on the history of the U.S. Navy, I highly recommend "The U.S. Navy: A History" by John R. Heilbrunn. It's a comprehensive and well-written book that covers the entire history of the U.S. Navy, from its early days to the present. It's a great read for anyone interested in the history of the U.S. Navy.

the 1990s, the number of people in the United States who are obese has increased by 50 percent. In 1990, 15 percent of the population was obese, but by 2000, that number had risen to 23 percent. And the numbers are projected to continue to rise. By 2010, 30 percent of the population is expected to be obese, and by 2020, that number is projected to reach 35 percent. The increase in obesity is a major public health concern because it is a leading cause of heart disease, diabetes, and other chronic diseases. The Centers for Disease Control and Prevention (CDC) estimates that obesity costs the United States \$147 billion each year in medical costs and lost productivity. The CDC also reports that obesity is the leading cause of death in the United States, with more than 300,000 people dying each year from complications related to obesity. The increase in obesity is also a major concern for the military because it can affect a soldier's ability to perform his or her duties. The Department of Defense (DoD) estimates that obesity costs the military \$1.2 billion each year in medical costs and lost productivity. The DoD also reports that obesity is the leading cause of death in the military, with more than 10,000 people dying each year from complications related to obesity. Exploring Religion in Our Time (Penerbit USM) Chandra Muzaffar, 2010 This book is an attempt to understand some of the most important issues that have emerged in the interface between religion and society in recent decades What is the role that religions such as Buddhism Christianity Hinduism Islam and Judaism play in the public sphere today How have governments established in the name of religion fared in matters pertaining to governance What are the forces responsible for the shift towards religion as the principal conduit for reform and protest in certain societies in Asia Is the religious worldview and are religious values relevant to the resolution of the major crises confronting humanity today from environmental degradation to the economic meltdown What sort of transformation will have to take place within religion itself if it is to serve as a spiritual moral compass in a world that is
