Machine Scoring of Student Essays Patricia Freitag Ericsson,Richard Haswell,2006-03-15 The current trend toward machine scoring of student work Ericsson and Haswell argue has created an emerging issue with implications for higher education across the disciplines but with particular importance for those in English departments and in administration The academic community has been silent on the issue some would say excluded from it while the commercial entities who develop

essay scoring software have been very active Machine Scoring of Student Essays is the first volume to seriously consider the educational mechanisms and consequences of this trend and it offers important discussions from some of the leading scholars in writing assessment Reading and evaluating student writing is a time consuming process yet it is a vital part of both student placement and coursework at post secondary institutions In recent years commercial computer evaluation programs have been developed to score student essays in both of these contexts Two year colleges have been especially drawn to these programs but four year institutions are moving to them as well because of the cost savings they promise Unfortunately to a large extent the programs have been written and institutions are installing them without attention to their instructional validity or adequacy Since the education software companies are moving so rapidly into what they perceive as a promising new market a wider discussion of machine scoring is vital if scholars hope to influence development and or implementation of the programs being created What is needed then is a critical resource to help teachers and administrators evaluate programs they might be considering and to more fully envision the instructional consequences of adopting them And this is the resource that Ericsson and Haswell are providing here **The British National Bibliography** Arthur James Wells,2006 Linguistics and Language Behavior Abstracts ,2008 *American Book Publishing Record* ,2005 Testing in Language Programs James Dean Brown,2005 Testing in language programs is a core text for graduate and undergraduate teacher training courses in language testing assessment Ideal for both classroom use and personal reference this book targets the need of those making both program level e g admissions proficiency and placement as well as classroom level testing decisions e g assessing what students have learned through diagnostic and achievement testing Back cover *CALICO Journal* ,2003 **Annual Review of Applied Linguistics** ,2005 **Bibliographic Guide to Education 2003** GK Hall,2004-10 The Bibliographic Guide to Education lists recent publications cataloged during the past year by Teachers College Columbia University supplemented by publications in the field of education cataloged by The Research Libraries of The New York Public Library selected on the basis of subject headings Non book materials including theses are included in this Guide with the exception of serials All aspects and levels of education are represented in this Guide including such areas as American elementary and secondary education higher and adult education early childhood education history and philosophy of education applied pedagogy international and comparative education educational administration education of the culturally disadvantaged and physically handicapped nursing education and education of minorities and women Also well covered are the administrative reports of departments of education for various countries and for U S states and large cities The Teachers College collection covers over 200 distinct educational systems Works in all languages are included The Bibliographic Guide to Education serves in part as an annual supplement to the Dictionary Catalog of the Teachers College Library Columbia University G K Hall Second Supplement 1973 Third Supplement 1977 *RILA* ,2010 Resources in Education ,1997 *Assessing Language for Specific Purposes* Dan Douglas,2000 Testing language for specific purposes LSP

refers to that branch of language testing in which the test content and test methods are derived from an analysis of a specific language use situation such as Spanish for business Japanese for tour guides Italian for language teachers or English for air traffic control LSP tests are usually contrasted with general purpose language tests in which purpose is more broadly defined as in the Test of English as a Foreign Language This book is the first to examine the issues surrounding the implementation of tests for specific purposes It includes an in depth discussion of the issues an examination of the current exams and a comprehensive overview of the literature It will be a welcome addition to any language teaching professionals library
