Anna Halprin Dance Process Form:

Anna Halprin Ursula Schorn, Ronit Land, Gabriele Wittmann, 2014-09-21 This book considers the creative work and therapeutic and pedagogical approach of Anna Halprin a dancer choreographer and early pioneer in the expressive arts healing movement. It looks at her Life Art Process and the wider impact of her work across the fields of art education, therapy and politics.

Making Dances That Matter *Anna Halprin, 2019-02-08* Anna Halprin, vanguard postmodern dancer turned community artist and healer, has created ground breaking dances with communities all over the world. Here she presents her philosophy and experience as well as step by step processes for bringing people together to create dances that foster individual and group well being. At the heart of this book are accounts of two dances: the Planetary Dance, which continues to be performed throughout the world, and Circle the Earth. The Circle the Earth workshop for people living with AIDS has generated dozens of scores for others to adapt. In addition, the book provides a concrete guide to Halprin's celebrated Planetary Dance. Now more than 35 years old, Planetary Dance promotes peace among people and peace with the Earth. Open to everyone, it has been performed in more than 50 countries. In 1995, more than 400 participants joined her in a Planetary Dance in Berlin, commemorating the fiftieth anniversary of the signing of the Potsdam Agreements at the end of World War II. More recently, she took the Planetary Dance to Israel, bringing together Israelis and Palestinians as well as other nationalities. Throughout this book, Halprin shows how dance can be a powerful tool for healing, learning and mobilizing change, and she offers insight and advice on facilitating groups. If we are to survive, Halprin argues, we must learn experientially how our individual stories weave together and strengthen the fabric of our collective body. Generously illustrated with photographs, charts and scores, this book will be a boon to dance therapists, educators and community artists of all types.

Choreography, Visual Art and Experimental Composition 1950s-1970s *Erin Brannigan, 2022-03-29* Winner of the 2023 Selma Jeanne Cohen Prize in Dance Aesthetics. The American Society for Aesthetics. This book traces the history of engagements between dance and the visual arts in the mid twentieth century and provides a backdrop for the emerging field of contemporary intermedial art practice. Exploring the disciplinary identity of dance in dialogue with the visual arts, this book unpacks how compositional methods that were dance based informed visual art contexts. The book provokes fresh consideration of the entangled relationship between and historiographic significance of visual arts and dance by exploring movements in history that dance has been traditionally mapped to: Neo Avant Garde, Neo Dada, Conceptual art, Postmodernism and Performance Art and the specific practices and innovations from key people in the field like John Cage, Anna Halprin and Robert Rauschenberg. This book also employs a series of historical and critical case studies which show how compositional approaches from dance (breath, weight, tone, energy) informed the emergence of the intermedial. Ultimately, this book shows how dance and choreography have played an important role in shaping visual arts culture and enables the re-imagining of current art practices through the use of choreographic tools. This unique and timely offering is important.
