Education for the Professions in Times of Change Linda Clarke,2020-12-02 The eminent Harvard educationalist Howard Garner writes a preface to the Place Model within his Good Project Blog which provides a preface to this timely book Professional is a slippery term open to willful abuse misuse and misunderstanding as evidenced by the ways in which this chameleon term can be used as both a compliment and an insult In this book academics from a range of professional fields deconstruct professional and reimagine professionals in an age of rapid change where professionals are both increasingly in demand and frequently under threat Several deploy the lens of Clarke s Place Model to examine professions including teaching midwifery social work journalism and optometry Some papers are empirical and some are based around using the Place Model as a thought experiment All turn a critical eye on professionals and all find them to be like all humans neither devils nor divines Maya Angelou but at their best a combination of two indispensable characteristics trustworthiness and expertise

series and custom research form the hub of the world's largest global IT media network The Cambridge History of the Polar Regions Adrian Howkins, Peder Roberts, 2023-05-11 The Cambridge History of the Polar Regions is a landmark collection drawing together the history of the Arctic and Antarctica from the earliest times to the present. Structured as a series of thematic chapters, an international team of scholars offer a range of perspectives from environmental history, the history of science and exploration, cultural history, and the more traditional approaches of political, social, economic, and imperial history. The volume considers the centrality of Indigenous experience and the urgent need to build action in the present on a thorough understanding of the past. Using historical research based on methods ranging from archives and print culture to archaeology and oral histories, these essays provide fresh analyses of the discovery of Antarctica, the disappearance of Sir John Franklin, the fate of the Norse colony in Greenland, the origins of the Antarctic Treaty, and much more. This is an invaluable resource for anyone interested in the history of our planet. **Normal Instructor and Teachers World**, 1928

Journal of Education and School World, 1916 AGS Quarterly, 1999 *Women and the Jet Age* Phil Tiemeyer, 2025-07-15 *Women and the Jet Age* is a global history of postwar aviation that examines how states nurtured airlines for competing political and economic goals during the Cold War. While previous histories almost exclusively stress US and Western European aviation progress, Phil Tiemeyer examines how smaller, poorer states in socialist Eastern Europe and in the postcolonial Global South utilized airlines of their own to forge rival pathways to modernization. Part of this modernization involved norms for working women. Stewardesses at airlines around the globe encountered novel threats to their dignity as the Jet Age approached. By the late 1960s, stewardesses endured harsh objectification. High hemlines, tight uniforms, and raunchy marketing were touted as modern and liberated. These women, whether from the West, East, or South, forged their own pathways to achieve greater dignity at work. In *Women and the Jet Age*, Tiemeyer's global account of the rise of air travel and of early feminist strivings among stewardesses is one of the first histories to place such developments in political, economic, and feminist dialogue with each other.
