

# Moral Standing

Distinguishes “moral agents” from “moral patients”

Moral agents typified by competent human adults

Moral patients include everything that has interests, e.g. babies, the mentally incompetent and animals.

Both moral agents and moral patients have moral standing, i.e. are ends of themselves and are subject to rights

What has interests?

Subjects-of-a-life.

**Utilitarianism** John Stuart Mill,1870 Utilitarianism by John Stuart Mill is an essay written to provide support for the value of utilitarianism as a moral theory and to respond to misconceptions about it Mill defines utilitarianism as a theory based on the principle that actions are right in proportion as they tend to promote happiness wrong as they tend to produce the reverse of happiness Mill defines happiness as pleasure and the absence of pain He argues that pleasure can differ in quality and quantity and that pleasures that are rooted in one s higher faculties should be weighted more heavily than baser pleasures Furthermore Mill argues that people s achievement of goals and ends such as virtuous living should be counted as part of their happiness      **Environmental Ethics and Philosophy** John O'Neill,R. Kerry Turner,Ian Bateman,2001 Sustainability and sustainable development have become key phrases of the politics of the environment They are at the centre of much environmental discourse and indeed of the series of which this collection is a part This major volume brings together a number of recent papers that address the ethical and political assumptions that underlie different uses of those concepts Part I examines equality and justice Part II focuses on justice equality and future generations Part III deals with the

moral considerability of the non human world and Part IV looks at environmental justice Part V examines economic valuation and Part VI discusses sustainability Part VII covers sustainability and nature This volume will be an invaluable source of reference for scholars of environmental economics environmental political theory environmental ethics and geography and all those concerned with the philosophical foundations of sustainability     *Morals Based on Needs* Ragnar

Ohlsson,1995-04-11 The concept of need has been analyzed by numerous modern philosophers While they usually view need as a necessary condition for avoiding harm Morals Based on Needs gives basic needs a clarifying new definition in terms of necessary and sufficient condition for an acceptable life Ohlsson investigates the connections between needs and moral norms creating a new foundation for ethics     *Utilitarianism, Liberty, Representative Government* John Stuart Mill,1922

Ethics Jacques P. Thiroux,1995 Using a clear jargon free style and a flexible organization this book introduces readers with little or no background in philosophy or ethics to traditional and contemporary ethical theory Through an abundance of examples and case studies it shows them how to set up their own systematic rational ethics and how to apply ethical theories to traditional and contemporary moral issues     **The Concise Dictionary of Religious Knowledge and Gazetteer**
