**People Space** Catharine Ward Thompson,Penny Travlou,2007-09-07 Highly visual and containing contributions from leading names in landscape architecture and design this volume provides a rare insight into people s engagement with the outdoor environment looking at the ways in which the design of spaces and places meets people s needs and desires in the twenty first century Embracing issues of social inclusion recreation and environmental quality the editors explore innovative ways to develop an understanding of how the landscape urban or rural can contribute to health and quality of life Open Space People Space examines the nature and value of people s access to outdoor environments Led by Edinburgh s OPENspace research centre the debate focuses on current research to support good design for open space and brings expertise from a range of disciplines to look at an analysis of policy and planning issues and challenges understanding the nature and experience of

exclusion the development of evidence based inclusive design innovative research approaches which focus on people's access to open space and the implications of that experience. Invaluable to policy makers researchers urban designers landscape architects planners managers and students it is also essential reading for those working in child development health care and community development. Teaching Science and Technology in the Early Years (3-7) Dan Davies, Alan Howe, Christopher Collier, Rebecca Digby, Sarah Earle, Kendra McMahon, 2014-04-24. Teaching Science and Technology in the Early Years 3 7 celebrates young children's amazing capabilities as scientists designers and technologists. Research based yet practical and accessible it demonstrates how scientific designing and making activities are natural to young children and have the potential for contributing to all aspects of their learning. By identifying the scientific and design related concepts skills and activities being developed the book enables the reader to make more focused diagnostic observations of young children and plan for how they can help move them forward in their learning. This second edition has been thoroughly updated and features Six new chapters providing practical advice and examples for enhancing scientific and technological learning through thematic approaches a new chapter focusing on the outdoor learning environment and how this can support science and technology new case studies of successful early years practice alongside examples of practical planning for learning and advice on documenting children's learning stories guidance on the role of talk narrative documentation and planning in relation to early years science and technology. Based on the latest research and the first hand experience this practical and accessible book is essential reading for early years and primary students on undergraduate and Masters level courses.
