and authors are among the leaders of the profession sharing their cumulative wisdom in toxicology's subdisciplines. This edition keeps pace with the digital world in directing and linking readers to relevant websites and other online tools. Due to the increasing size of the hardcopy publication the current edition has been divided into two volumes to make it easier to handle and consult. Volume 1 Background Resources and Tools arranged in 5 parts begins with chapters on the science of toxicology its history and informatics framework in Part 1. Part 2 continues with chapters organized by more specific subject such as cancer clinical toxicology genetic toxicology etc. The categorization of chapters by resource format for example journals and newsletters technical reports organizations constitutes Part 3. Part 4 further considers toxicology's presence via the Internet databases and software tools. Among the miscellaneous topics in the concluding Part 5 are laws and regulations professional education grants and funding and patents. Volume 2 The Global Arena offers contributed chapters focusing on the toxicology contributions of over 40 countries followed by a glossary of toxicological terms and an appendix of popular quotations related to the field. The book offered in both print and electronic formats is carefully structured indexed and cross referenced to enable users to easily find answers to their questions or serendipitously locate useful knowledge they were not originally aware they needed. Among the many timely topics receiving increased emphasis are disaster preparedness nanotechnology omics risk assessment societal implications such as ethics and the precautionary principle climate change and children's environmental health. Introductory chapters provide a backdrop to the science of toxicology its history the origin and status of toxicoinformatics and starting points for identifying resources. Offers an extensive array of chapters organized by subject each highlighting resources such as journals databases organizations and review articles. Includes chapters with an emphasis on format such as government reports general interest publications blogs and audiovisuals. Explores recent internet trends web based databases and software tools in a section on the online environment. Concludes with a miscellany of special topics such as laws and regulations chemical hazard communication resources careers and professional education K-12 resources funding poison control centers and patents. Paired with Volume Two which focuses on global resources this set offers the most comprehensive compendium of print digital and organizational resources in the toxicological sciences with over 120 chapters contributions by experts and leaders in the field.

web surf casting başta İtalya ve amerika olmak üzere sığ sulara sahip kumsal bölgelerde ortaya çıkan bir teknikdir. Bu teknikin amacı yemi dalganın ilk kırıldığı bölgenin daha uzağına düşürerek yemin dalga tarafından kıyıya sürüklenebilmesini önlemektir. Yani burada amaç uzun mesafeli atışlar yapmaya olanak sağlayacak ekipmanına sahip olmaktır.
