Explorations in Southern African Drama, Theatre and Performance Patrick J. Ebewo, 2017-05-11 In spite of the rich repertoire of artistic traditions in Southern Africa particularly in the areas of drama theatre and performance there seems to be a lack of a corresponding robust academic engagement with these subjects While it can be said that some of the racial groups in the region have received substantial attention in terms of scholarly discussions of their drama and theatre performances the same cannot be said of the black African racial group As such this collection of thirteen chapters represents a compendium of critical and intellectual discourses on black African drama theatre and performance in Botswana Lesotho South Africa and Swaziland The topics covered in the book include amongst others ritual practices interventionist approaches to drama textual analyses and the funeral rites viewed as performance of the South African liberation icon Nelson Mandela The discussions are rooted mainly using African paradigms that are relevant to the context of African cultural production The contributions here add to the aggregate knowledge economy of Southern Africa promote research and publication and provide reading materials for university students specialising in the performing arts As such the book will appeal to academics theatre scholars cultural workers and arts administrators arts practitioners and entrepreneurs the tourism industry arts educators and development communication experts

Theatre, Globalization and the Cold War Christopher B. Balme, Berenika Szymanski-Düll, 2017-06-05 This book examines how the Cold War had a far reaching impact on theatre by presenting a range of current scholarship on the topic from scholars from a dozen countries They represent in turn a variety of perspectives methodologies and theatrical genres including not only Bertolt Brecht Jerzy Grotowski and Peter Brook but also Polish folk dancing documentary theatre and opera production The contributions demonstrate that there was much more at stake and a much larger investment of ideological and economic capital than a simple dichotomy between East versus West or socialism versus capitalism might suggest Culture and theatrical culture in particular with its high degree of representational power was recognized as an important medium in the ideological struggles that characterize this epoch Most importantly the volume explores how theatre can be reconceptualized in terms of transnational or even global processes which it will be argued were an integral part of Cold War rivalries
