,2015-08-20 Description Japanese Americans at Manzanar We had about one week to dispose of what we owned except what we could pack and carry for our departure by bus for Manzanar William Hohri Japan s attack on Pearl Harbor December 7 1941 led the United States into World War II and radically changed the lives of 120 000 men women and children of Japanese ancestry living in the United States The attack intensified racial prejudices and led to fear of potential sabotage and espionage by Japanese Americans among some in the government military news media and public In February 1942 President Franklin D Roosevelt signed Executive Order 9066 authorizing the Secretary of War to establish Military Areas and to remove from those areas anyone who might threaten the war effort Without due process the government gave everyone of Japanese ancestry living on the West Coast only days to decide what to do with their houses farms businesses and other possessions Most families sold their belongings at a significant loss Some rented their properties to neighbors Others left possessions with friends or religious groups Some abandoned their property They did not know where they were going or for how long Each family was assigned an identification number and loaded into cars buses trucks and trains taking only what they could carry Japanese Americans were transported under military guard to 17 temporary assembly centers located at racetracks fairgrounds and similar facilities in Washington Oregon California and Arizona Then they were moved to one of 10 hastily built relocation centers By November 1942 the relocation was complete *Ansel Adams Screensaver* Ansel

photographs he produced of America s natural heritage known collectively as the National Park Service Photographs representative examples of which are reproduced here This assignment was especially commissioned in 1941 by Harold Ickes of the United States Department of the Interior and the aim was to record for posterity areas that had been designated national parks as well as portraying the Native American homelands and other monuments and areas of reclamation of the great American wilderness These would also be used as photo murals to decorate the walls of the Department of the Interior

Ickes was already familiar with Ansel's work having seen detailed studies of leaves and ferns which featured in an exhibition of 1936. Indeed he liked them so much that he hung one in his own office. He eventually made Ansel's acquaintance when the photographer came to lobby Congress seeking to have Kings River Canyon, California, designated a national park. Originally only painted murals by established artists were thought suitable for inclusion in the Mural Project as it came to be known as photography had yet to be considered worthy of being regarded as an art form rather than a way of recording or documenting reality. But Ickes was convinced that Ansel's work was artistically valid and would make its own inimitable contribution to the scheme. The collection of works commissioned in 1941 was intermixed with earlier studies of the Kings Canyon area dating back to 1936 and these and the new prints were offered as part of the commission. The photographs are a pictorial testament to the majesty of the American West captured with technical accuracy and imbued with sheer inventiveness and a deep empathy for the regions which Ansel sought to protect and maintain intact. They range from rivers and canyons, close-ups of plant life, Native American villages and their inhabitants, the mysterious and enigmatic underworld of the Carlsbad Caverns and the geysers and twisted forms of Yellowstone National Park. Together they offer a visual feast and a source of delight and nourishment for the spirit.

With more than two hundred photographs, many rarely seen and some never before published, this is the most comprehensive collection of Ansel Adams' photographs of America's national parks and wilderness areas. For many people, Yosemite, Yellowstone, Glacier National Park, and other iconic American wildlands exist in the mind's eye as Ansel Adams' photographs. The legendary photographer explored more than forty national parks in his lifetime, producing some of the most indelible images of the natural world ever made. One of the twentieth century's most ardent champions of the park and wilderness systems, Adams also helped preserve additional natural areas and protect existing ones through his photographs, essays, and letter-writing campaigns. Edited and with commentary by Andrea G. Stillman, the foremost expert on Adams' work, this landmark publication includes quotations by Adams on the making of numerous photographs and essays by Wallace Stegner, William A. Turnage of The Ansel Adams Trust, and journalist and critic Richard B. Woodward. This is a must own for Ansel Adams fans and all those who like Adams' treasure America's wilderness.
