**A Modest Proposal in the Context of Swift's Irish Tracts** Maria-Angeles Ruiz Moneva, 2020-06-12 Swift's A Modest Proposal has always aroused the interest not just of literary critics but also of linguists and pragmatists. Within the latter approaches the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount. However, it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself. In the present author's view it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the Irish Question. It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of A Modest Proposal. **Rhetoric for Academic Reasoning**

L. Bense-Meyers, 1992 Diachronic Developments in English News Discourse Minna Palander-Collin, Maura Ratia, Irma Taavitsainen, 2017-08-15 The history of English news discourse is characterised by intriguing multilevel developments and the present cannot be separated from them. For example, audience engagement is by no means an invention of the digital age. This collection highlights major topics that range from newspaper genres like sports reports, advertisements and comic strips to a variety of news practices. All contributions view news discourse in a specific historical period or across time and relate language features to their sociohistorical contexts and changing ideologies. The varying needs and expectations of the newspaper producers, writers and readers, and even news agents, are taken into account. The articles use interdisciplinary study methods and move at interfaces between sociolinguistics, journalism, semiotics, literary theory, critical discourse analysis, pragmatics and sociology. *Literature Criticism from 1400 to 1800*, 2004

**Kierkegaard on Faith and the Self** C. Stephen Evans, 2006 Evans makes a strong case that Kierkegaard has something crucial to say to the Christian church as a philosopher and something equally crucial to say to the philosophical world as a Christian believer. Corns, 2022-11-30 First published in 1987, *The Literature of Controversy* is a collection of essays by scholars from Britain, the United States and Australia on major works from a classic epoch of English controversial prose. Each essay engages a single text or series of texts less to discuss the ideas and arguments per se than to consider the rhetorical techniques assumed for the political manipulation of the readers. Though emphasis varies from contribution to contribution, the purpose broadly is to explore how the constituents of

those texts are organised to coax cajole persuade or inspire those to whom they address As the editor argues in his introduction this approach the critique of polemical strategy for the most part accepts the validity of paying regard to the author and his intentions it engages questions about the responses of the readership at which the texts were targeted and it proceeds intertextuality in its attempts to reconstruct the controversies in which the texts were embedded and the codes within which they operated This book will be of interest to students of literature rhetoric and history
