A History of the French Language Through Texts Wendy Ayres-Bennett,1996 This new history of the French language allows the reader to see how the language has evolved for themselves It combines texts and extracts with a readable and detailed commentary allowing the language to be viewed both synchronically and diachronically Core texts range from the ninth century to the present day highlight central features of the language whilst a range of shorter texts illustrate particular points The inclusion of non literary as well as literary texts serves to illustrate some of the many varieties of French whether in legal scientific epistolatory administrative or liturgical or in more popular domains including attempts to represent spoken usage This is essential reading for the undergraduate student of French

The General Reader and the Academy Leah Tether,2019-05-30 Penguin Classics have built their reputation as one of the largest and most successful modern imprints for classic texts on the notion of the general reader Following an interrogation of this idea Leah Tether investigates the publication of medieval French literature on this list and shines a light on the drivers motivations negotiations and decision making processes behind it Focusing on the medieval French texts published between c 1956 and 2000 Tether demonstrates that rather than Penguin s frequently cited general reader a more academic market may have contributed to ensuring the success of these titles

Reading the World

Mary Franklin-Brown,2024-05-31 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias Variously referred to as a speculum thesaurus or *imago mundi* the term encyclopedia was not commonly applied to such books until the eighteenth century these texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic Because they reproduced rather than simply summarized parts of prior texts these compilations became libraries in miniature In this groundbreaking study Mary Franklin Brown examines writings in Latin Catalan and French that are connected to the encyclopedic movement Vincent of Beauvais's *Speculum maius* Ramon Llull's *Libre de meravelles* *Arbor scientiae* and *Arbre de filosofia d'amor* and Jean de Meun's continuation of the *Roman de la Rose* Franklin Brown analyzes the order of knowledge in these challenging texts describing the wide ranging interests the textual practices including commentary compilation and organization and the diverse discourses that they absorb from preexisting classical patristic and medieval writing She also demonstrates how these encyclopedias like libraries became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed But Franklin Brown's study will not appeal only to historians she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature She shows how encyclopedists employed the same practices of figuration narrative and citation as poets and romanciers while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias With rich and innovative readings of texts both familiar and neglected Reading the World reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age

original this present volume is the work of a team of translators directed by Norris J Lacy It has been edited for students and Arthurian enthusiasts in general Dating from early 13th century the Vulgate Cycle relates the entire course of Arthurian legend from the early history of the Grail to Arthur's death The five component romances written by an anonymous author or group of authors are the *Estoire del Saint Graal* the *Estoire de Merlin* the huge *Lancelot propre* the *Queste del Saint Graal* and the tragic conclusion the *Mort Artu* The post Vulgate Cycle also anonymous is a rehandling of the Vulgate material dating to 1230-40 The author attempted to impose a more homogeneous unity on the narrative by setting Arthur and the Grail at center stage rather than the illicit love of Lancelot and Guenevere This work has existed only in fragmentary form in French Spanish and Portuguese and has been largely reconstructed by scholars **Catalogue** University of Iowa, 1922
