Text, Lies and Cataloging Jana Brubaker, 2018-07-09 What do James Frey's *A Million Little Pieces* Margaret B Jones *Love and Consequence* and Wanda Koolmatrie's *My Own Sweet Time* have in common None of these popular books are what they appear to be Frey's fraudulent drug addiction memoir was really a semi fictional novel Jones' chronicle of her life in a street gang was a complete fabrication and Koolmatrie was not an Aboriginal woman removed from her family as a child as in her seemingly autobiographical account but rather a white taxi driver named Leon Carmen Deceptive literary works mislead readers and present librarians with a dilemma Whether making recommendations to patrons or creating catalog records objectivity and accuracy are crucial and can be difficult when a book's authorship or veracity is in doubt This informative and entertaining study addresses ethical considerations for deceptive works and proposes cataloging solutions that are provocative and designed to spark debate An extensive annotated bibliography describes books that are not what they seem

Boom! Julie Rak, 2013-06-15 Since the early 1990s tens of thousands of memoirs by celebrities and unknown people have been published sold and read by millions of American readers The memoir boom as the explosion of memoirs on the market has come to be called has been welcomed vilified and dismissed in the popular press But is there really a boom in memoir production in the United States If so what is causing it Are memoirs all written by narcissistic hacks for an unthinking public or do they indicate a growing need to understand world events through personal experiences This study seeks to answer these questions by examining memoir as an industrial product like other products something that publishers and booksellers help to create These popular texts become part of mass culture where they are connected to public events The genre of memoir and even genre itself ceases to be an empty classification category and becomes part of social action and consumer culture at the same time From James Frey's controversial *A Million Little Pieces* to memoirs about bartending Iran the liberation of Dachau computer hacking and the impact of 9/11 this book argues that the memoir boom is more than a publishing trend It is becoming the way American readers try to understand major events in terms of individual experiences The memoir boom is one of the ways that citizenship as a category of belonging between private and public spheres is now articulated
