A Practical Guide To Crisis Intervention:

Crisis Intervention Alan A. Cavaiola, Joseph E. Colford, 2017-10-24 Crisis Intervention takes into account various environments and populations across the lifespan to provide students with practical guidelines for managing crises. Drawing on over 25 years of relevant experience, authors Alan A. Cavaiola and Joseph E. Models for effectively managing these crises are presented along with the authors' own step by step approach to the Listen Assess Plan Commit (LAPC) model, giving students the freedom to select a model that best fits their personal style or a given crisis. Future mental health professionals will gain the knowledge, skills, and confidence to help their clients manage the crises they will encounter in their day to day lives.

Characteristics of effective crisis counseling and an overview of other theoretical intervention models are also presented throughout the text. Types of crises are examined in Chapters 3 through 9. Topics include child abuse and neglect, family violence, drug addiction, suicide, rape, or sexual assault, and loss of a loved one. Large scale crises and interventions are addressed in Chapter 10. The text looks at how communities, professional organizations, and the government respond to events like natural disasters.
