Identity and Space in Children's Literature* Terri Doughty,Dawn Thompson,2011-12-14 Traditionally in the West children were expected to know their place but what does this comprise in a contemporary globalized world Does it mean to continue to accept subordination to those larger and more powerful Does it mean to espouse unthinkingly a notion of national identity Or is it about gaining an awareness of the ways in which identity is derived from a sense of place Where individuals are situated matters as much if not more than it ever has In children s literature the physical places and psychological spaces inhabited by children and young adults are also key elements in the developing identity formation of characters and through engagement of readers too The contributors to this collection map a broad range of historical and present day workings of this process exploring indigeneity and place tracing the intertwining of place and identity in diasporic literature analyzing the relationship of the child to the natural world and studying the role of fantastic spaces in children s construction of the self They address fresh topics and texts ranging from the indigenization of the Gothic by Canadian mixed blood Anishinabe writer Drew Hayden Taylor to the lesser known children s books of George Mackay Brown to eco feminist analysis of contemporary verse novels The essays on more canonical texts such as Peter Pan and the Harry Potter series provide new angles from which to revision them Readers of this collection will gain understanding of the complex interactions of place space and identity in children s literature Essays in this book will appeal to those interested in Children s Literature Aboriginal Studies Environmentalism and literature and Fantasy literature

responsible lives We now live in a world in which our traditional moral exemplars have been less than honorable in their public behavior With fewer heroes and flawed role models how are children to come to an understanding of what s right what s good decent and socially responsible Do as I say not as I do is hardly a viable tenet to guide children s choices This book offers important tools for carrying out effective strategies that build caring environments in the classroom and home for teaching children to weigh decisions in the face of potential consequences examine rationales for their choices and study the effects of their choices on others i e to think more carefully about ethical problems in the presence of the moral freedom to determine for themselves what it means to lead a good and virtuous life   Canadian Children's Literature ,1997
