**The Good Place and Philosophy** Steven A. Benko, Andrew Pavelich, 2019-09-17 The Good Place is a fantasy comedy TV show about the afterlife Eleanor dies and finds herself in the Good Place which she understands must be a mistake since she has been anything but good In the surprise twist ending to Season One it is revealed that this is really the Bad Place but the demon who planned it was frustrated because the characters didn't torture each other mentally as planned but managed to learn how to live together In *The Good Place and Philosophy* twenty one philosophers analyze different aspects of the ethical and metaphysical issues raised in the show including Indefinitely long punishment can only be justified as a method of ultimately improving vicious characters not as retribution Can individuals retain their identity after hundreds of reboots Comparing Hinduism with The Good Place we can conclude that Hinduism gets things five percent correct Looking at all the events in the show it follows that humans don't have free will and so people are being punished and rewarded unjustly Is it a problem that the show depicts torture as hilarious This problem can be resolved by considering the limited perspective of humans compared with the eternal perspective of the demons The Good Place implies that even demons can develop morally The only way to explain how the characters remain the same people after death is to suppose that their actual bodies are transported to the afterlife Since Chidi knows all the moral theories but can never decide what to do it must follow that there is something missing in all these theories The show depicts an afterlife which is bureaucratic therefore unchangeable therefore deeply unjust Eleanor acts on instinct without thinking whereas Chidi tries to think everything through and never gets around to acting together these two characters can truly act morally The Good Place shows us that authenticity means living for others The Good Place is based on Sartre's play *No Exit* with its famous line Hell is other people but in fact both *No Exit* and The Good Place inform us that human relationships can redeem us In The Good Place everything the humans do is impermanent since it can be rebooted so humans cannot accomplish anything good Kant's moral precepts are supposed to be universal but The Good Place shows us it can be right to lie to demons The show raises the question whether we can ever be good except by being part of a virtuous community

A Great Place to Have a War Joshua Kurlantzick, 2017-01-24 The untold story of how America's secret war in Laos in the 1960s transformed the CIA from a loose collection of spies into a military operation and a key player in American foreign policy January 1961 Laos a tiny nation few Americans have heard of is at risk of falling to communism and triggering a domino effect throughout Southeast Asia This is what President Eisenhower believed when he approved the CIA's

Operation Momentum creating an army of ethnic Hmong to fight communist forces there Largely hidden from the American public and most of Congress Momentum became the largest CIA paramilitary operation in the history of the United States The brutal war lasted more than a decade left the ground littered with thousands of unexploded bombs and changed the nature of the CIA forever With revelatory reporting and lucid prose The Economist Kurlantzick provides the definitive account of the Laos war focusing on the four key people who led the operation the CIA operative whose idea it was the Hmong general who led the proxy army in the field the paramilitary specialist who trained the Hmong forces and the State Department careerist who took control over the war as it grew Using recently declassified records and extensive interviews Kurlantzick shows for the first time how the CIA s clandestine adventures in one small Southeast Asian country became the template for how the United States has conducted war ever since all the way to today s war on terrorism Focus On: 100
