A Night To Remember :

The Titanic in Myth and Memory Tim Bergfelder, Sarah Street, 2004-08-27 Since its maiden voyage and sinking in April 1912 Titanic has become a monumental icon of the 20th century and has inspired a wealth of interpretations across literature art and media This book offers a comprehensive discussion of the diverse representations of the connections and differences in the way generations of artists and audiences have approached and used the tragedy In the final section is an in depth study of James Cameron s blockbuster film Titanic

One Hundred and Sixty Minutes William Elliott Hazelgrove, 2021-09-01 One hundred and sixty minutes That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission More than twenty eight ships would be involved in the rescue of Titanic survivors along with four different countries At the heart of the rescue are two young Marconi operators Jack Phillips 25 and Harold Bride 22 tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts The race to save the largest ship in the world from certain death would reveal both heroes and villains It would begin at 11 40 PM on April 14 when the iceberg was struck and would end at 2 20 AM April 15 when her lights blinked out and left 1500 people thrashing in 25 degree water Although the race to save Titanic survivors would stretch on beyond this most people in the water would die but the amazing thing is that of the 2229 people 710 did not and this was the success of the Titanic rescue effort We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man woman and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three hundred foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting edge technology of the time wireless

Unsinkable Daniel Allen Butler, 2012-01-02 The first modern work to give a comprehensive picture of the RMS Titanic and the people intertwined with her fate from disaster to recovery Drawn from primary sources and contemporary accounts and updated to coincide with the April 2012 anniversary this new heart rending narrative allows readers to come to their own conclusions about this legendary vessel Daniel Allen Butler spend more than 30 years researching the work delving into the lives of every principal participant In addition to examining the roles played by individual he also looks into the problems of equipment and errors in technical data that resulted in the deaths of 1502 people Rather than focussing on the night of the tragedy alone he also investigates the events leading up to and following the
