A Modern Introduction To Theology New Questions For Old Beliefs:

A Modern Introduction to Theology Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy's book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies *A Modern Introduction to Theology* moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

Modern Theology Rachel Muers, Mike Higton, 2015-06-11 This book offers a fresh and up to date introduction to modern Christian theology The long nineteenth century saw enormous transformations of theology and of thought about religion that shaped the way both Christianity and religion are understood today Muers and Higton provide a lucid guide to the development of theology since 1789 giving students a critical understanding of their own modern assumptions of the origins of the debates and the fields of study in which they are involved and of major modern thinkers *Modern Theology* introduces the context and work of a selection of major nineteenth century thinkers who decisively affected the shape of modern theology presents key debates and issues that have their roots in the nineteenth century but are also central to the study of twentieth and twenty first century theology includes exercises and study materials that explicitly focus on the development of core academic skills This valuable resource also contains a glossary timeline annotated bibliographies and illustrations

World Peace through Christian-Muslim Understanding Sarah Markiewicz, 2016-10-10 The open letter *A Common Word Between Us and You* Amman 2007 is a unique example of Christian Muslim dialogue The central message behind ACW is that the future of the world depends on peace between Muslims and Christians ACW aims to achieve political change through theological argumentation An improvement in Islam West relations can be indirectly achieved through a focus on improving Christian Muslim relations This study investigates the genesis and fruits of ACW highlighting the importance of a specific historical and sociopolitical *Sitz im Leben* which decisively influenced its form and content

Twentieth-Century Theologians Philip Kennedy, 2010-01-30 One needs to be a lunatic to become a Christian the 19th century Danish philosopher Soren Kierkegaard once observed Had he lived in the 20th century he might have discerned even more of an obstacle to faith For during the last century the human condition

changed more rapidly than during any previous era taking that condition far away from the historical circumstances in which Christianity was born In his new book Philip Kennedy explores the ways Christian theologians of the 20th century tried to live a productive religious life in a world overtaken by massive upheaval and innovation The book is distinctive in a number of respects First it differs from other surveys of theology by adopting a biographical method examining the lives of its subjects in historical context Second it is more progressive than its competitors covering many theologians other than white male professors especially women who have worked outside the academy or on the margins of the churches Third it is international focusing on theologians in all the continents of the world rather than just Europe or North America Fourth it makes no assumptions that its readers are religious or that theology is uniquely credible There is a need for a sensitive new textbook reassessing the subject in the light of modern concerns and scepticism about religion This book meets that need
