Subject catalogue. Personality index. Film index* British Film Institute. Library, 1975 **Genre and Hollywood** Steve Neale, 2005-06-20 Genre and Hollywood provides a comprehensive introduction to the study of genre In this important new book Steve Neale discusses all the major concepts theories and accounts of Hollywood and genre as well as the key genres which theorists have written about from horror to the Western He also puts forward new arguments about the importance of genre in understanding Hollywood cinema Neale takes issue with much genre criticism and genre theory which has provided only a partial and misleading account of Hollywood's output He calls for broader and more flexible conceptions of genre and genres for more attention to be paid to the discourses and practices of Hollywood itself for the nature and range of Hollywood's films to be looked at in more detail and for any assessment of the social and cultural significance of Hollywood's genres to take account of industrial factors In detailed revisionist accounts of two major genres film noir and melodrama Neale argues that genre remains an important and productive means of thinking about both New and old Hollywood its history its audiences and its films *Film*, 1975

the Forties and Fifties Larry Langman, Daniel Finn, 1995-10-24 The only comprehensive guide to the crime films of the forties and fifties this volume focuses on the major events that shaped and molded the genre war alienation drugs and organized crime The body of the work offers over 1 200 entries that feature concise summaries analyses and credits The volume is a continuation of the author's earlier work *A Guide to American Crime Films of the Thirties* Greenwood 1995 The book includes those stars that the public had already embraced as gangsters in the thirties such as James Cagney Humphrey Bogart and Edward G Robinson and brings them into a new era in which they are transformed into enforcers of the law This work will be of interest to scholars students and film buffs alike The work demonstrates the shift from the simpler gangster modes of the 1930s as it takes the reader forward to the more sophisticated films of the late fifties Although the book is organized alphabetically the introduction alerts the reader to the major social phenomena that influenced the genre of these decades Also offered are credits that cover titles release dates distributors directors screenwriters and major players The 1 200 entries include detailed plot summaries and thematic analyses as well as relevant information on sources remakes and sequels

A Guide to American Crime Films of the Thirties Larry Langman, Daniel Finn, 1995-02-28 Recent crime films such as *Scarface* the *Dirty Harry* series and *The Godfather* have captured the American imagination but they owe a large debt to the early crime talkies such as *The Public Enemy* Paul Muni's *Scarface* and *Little Caesar* More than 1 000 entries are featured in this volume complete with the names of directors screen writers and major players offering a wealth of data supported by plot evaluations For the serious student of crime films this work provides a comprehensive treatment of the genre It is the only one volume work that includes all crime sub genres detective mystery cops and robbers and courtroom dramas in addition to gangster films The period between the end of the silent film 1927 and the general acceptance of the sound film 1929 is often referred to as a transition period The majority of theaters were not wired for sound so many films were released in both silent and sound versions Some added only sound effects or music to the sound track while others offered only brief segments of sound The early 1930s marked the end of this transition period and firmly established the sound era This volume pays homage to these early often crude melodramas The authors aim to preserve the memories of these films for their own generation and to introduce these works to a new generation thirsty for entertainment and knowledge
