Detailed sections cover both civil and criminal forensic practice, forensic report writing, treating mental illness in the incarcerated and ethical issues. Contributors are the best known and most respected practitioners in the field from the US and Canada. All chapters are completely revised from the previous edition including 6 which have new authors. With the growing public interest in all things forensic most graduate programs in psychology have added at least one course in forensic psychology over the past few years and more established professionals are entering the field every day.
