**The Rise of the**

**Automated Aristocrats** Mark Hodder, 2015-08-11 Sir Richard Francis Burton's expedition has returned from the future bringing with it knowledge of technologies that must remain secret if history is to proceed as it should. However when one of his colleagues turns rogue the secret falls into the hands of the very people most likely to misuse it. Betrayed Burton and Swinburne watch in horror as the Empire's elite employ the technology to secure their positions of privilege. When London's parks are transformed into concentration camps artists and philosophers are declared enemies of the State and propaganda proliferates the king's agent finds himself on the wrong side of the king. Can Burton and his band of hunted revolutionaries overthrow an apparently indestructible and immortal autocrat and if so at what personal cost? The Spring Heeled Jack saga reaches its explosive conclusion

Francis Burton and poet Algernon Swinburne return in a new series of wildly imaginative steampunk adventures SPRING HEELED JACK IS JUMPING BACK It's 9 p.m. on February 15 1860 and Charles Babbage the British Empire's most brilliant scientist performs an experiment. Within moments blood red snow falls from the sky and Spring Heeled Jack pops out of thin air in London's Leicester Square. Though utterly disoriented and apparently insane the strange creature is intent on one thing hunting Sir Richard Francis Burton. Spring Heeled Jack isn't alone in his mental confusion Burton can hardly function he's experiencing one hallucination after another visions of parallel realities and future history. Someone or something is trying to tell him about what. When the revelation comes it sends Burton and his companions on an expedition even the great explorer could never have imagined a voyage through time itself into a twisted future where steam technology has made a resurgence and a despotic intelligence rules over the British Empire
