Border Crossing Alexander Burry, 2016-04-08 Each time a border is crossed there are cultural political and social issues to be considered Applying the metaphor of the border crossing from one temporal or spatial territory into another Border Crossing Russian Literature into Film examines the way classic Russian texts have been altered to suit new cinematic environments In these essays international scholars examine how political and economic circumstances from a shifting Soviet political landscape to the perceived demands of American and European markets have played a crucial role in dictating how filmmakers transpose their cinematic hypertext into a new environment Rather than focus on the degree of accuracy or fidelity with which these films address their originating texts this innovative collection explores the role of ideological political and other cultural pressures that can affect the transformation of literary narratives into cinematic offerings **Leo**

Auyoung, 2018-10-24 Why do readers claim that fictional worlds feel real How can certain literary characters seem capable of leading lives of their own outside the stories in which they appear What makes the experience of reading a novel uniquely pleasurable and what do readers lose when this experience comes to an end Since their first publication nineteenth century realist novels like Pride and Prejudice and Anna Karenina have inspired readers to describe literary experience as gaining access to vibrant fictional worlds and becoming friends with fictional characters While this effect continues to be central to the experience of reading realist fiction and later works in this tradition the capacity for novels to evoke persons and places in a reader's mind has often been taken for granted and even dismissed as a naive phenomenon unworthy of critical attention *When Fiction Feels Real* provides literary studies with new tools for thinking about the phenomenology of reading by bringing narrative techniques into conversation with psychological research on reading and cognition Through close readings of classic novels by Jane Austen Charles Dickens George Eliot and Leo Tolstoy and the elegies of Thomas Hardy Elaine Auyoung reveals what nineteenth century writers know about how reading works Building on well established research on the mind Auyoung exposes the underpinnings of the seemingly impossible achievement of realist fiction introducing new
