## **Business Studies September2013 Memo Grade11:**

**Patriarchy Inc.** Cordelia Fine,2025-08-19 A razor sharp and quick witted analysis of why we need a new approach to fixing the gender inequality embedded in work. Work remains much as it always has: men occupy the vast majority of leadership roles and are overrepresented in positions from engineer to plumber. We see many jobs as male or female with women dominating in healthcare and childcare professions. Pretending that this is the natural state of things or that instead both sexes should submit to working 24/7 is just not right. In *Patriarchy Inc.* Cordelia Fine examines with razor sharp and quick witted analysis why gender inequality is embedded in the workplace and why it has to change. Drawing on theories from evolutionary science, psychology, economics, and sociology, she examines two of the most prominent movements in the corporate world: The Different But Equal viewpoint espouses that women are in the jobs they want despite their lower status and salaries. In the meantime, DEI (Diversity, Equity, Inclusion) has become a slogan that emphasizes productivity and profit, not fair play. Fine shows how both are wrong and the bad effects on everyone when men are still stuck in traditional breadwinner roles and women are having to fight for their due. Offering perceptive and much-needed insight into the current state of work, *Patriarchy Inc.* explores how we can get closer to achieving equality even if it means upturning business as usual.

*Open to Think* Dan Pontefract,2018-09-11 While it may not occur to us on a daily basis, there is a widespread cultural tendency toward quick decisions and quick action. This pattern has resulted in many of our society's greatest successes but, even more of its failures. Though the root cause is by no means malicious, we have begun to reward speed over quality, and the negative effects suffered in both our personal and professional lives are potentially catastrophic. Best-selling author and Chief Envisioner Dan Pontefract offers the solution to this predicament with what he coins "Open Thinking": a cyclical process in which creativity is encouraged, critiquing leads to better decisions, and thoughtful action delivers positive, sustainable results. He proposes a return to balance between the three components of productive thought: dreaming, deciding, and doing. Based on organizational and societal data, academic research, historical studies, and a wide range of interviews, *Open to Think* is an appeal for a world of better thinking. Pontefract introduces tangible, actionable strategies to improve the way we think as organizations and individuals.
