"Complete the questions below after predictions for each book of "The Odyssey" and read through the story!"

Book 1a

- What did Poseidon have against Odysseus?
Odysseus blinded his son, a Cyclops.
- Why did the goddess Athena want Odysseus to return?
Odysseus married Europa (her name means match) and after the Cyclops ate his Odysseus' men.
- What problems did Odysseus' advisors cause for his men and son?
Odysseus' crew forced Penelope to marry them and slaughtered Odysseus' men.
- Why did Telemachus go on a voyage?
Odysseus disappeared and Odysseus' crew had no information about his return.
- "Long years ago, when she had just been touched by love, Penelope purchased her..." She probably thinks it's safe to be jealous.
Men, like Odysseus, never think they have to be careful not to hurt or anger their wives (which sounds uncharitable).

Odysseus ("Prediction" answer is not required)

Book 1b

- According to Athena, why was Penelope the blame for the many visitors in Odysseus' house?
Penelope had tricked the suitors by promising to marry one when she finished her weaving - then unweaving their work each night.
- What does Odysseus, and what prediction did he make?
He made an odd statement about Iphigeneia who predicted that Odysseus would return, and kill the suitors.
- Odysseus disagreed as Athena told the suitors, "I am not threatened by all the suitors' plots, and who can... threaten my wife and the rest of you, who sit in silence?" What was she saying?
Those who killed the beloved Odysseus' goods and family were worse than the plotters.
- Why didn't Odysseus want to return home?
She informed what the Trojans had brought for dangerous and the suitors' plan about his death.
- Predictions: Will Telemachus' voyage be successful?

North American Odyssey Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers building on current scholarship in the field explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes, as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth and twentieth century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. American Propaganda from the Spanish-American War to Iraq Steven R. Brydon, 2021-11-01 In this book Steven R Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11 Research has shown that well told stories can affect the public s beliefs attitudes and actions and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period Using Fisher s narrative paradigm Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people Scholars of media studies history military studies American studies and international relations will find this book particularly useful **American Foundryman**, 1943
